Proposed Segment 3

Proposed Segment 2

Approximate Location of Active and Potentially Active Faults

Inferred Fault

Concealed Fault

Fault

Locations of blind thrust faults (faults that do not reach the surface) are not depicted on this map.

Regional Earthquakes from 1800 to 2005

Magnitudes

5.00 - 5.99

6.00 - 6.99

7.00 - 8.00

Data Sources: Fault locations based on CGS CD 2000-006, Digital Database of Faults from the Fault Activity Map of California and Adjacent Areas; Earthquake magnitudes and locations from CGS 1800 - 2000 earthquake catalog and California Earthquake Data Center (SCEDC) catalogs for 2001 to January 2005
