RE: The Arc San Francisco Support for Draft Resolution TL-19145

Dear Consumer Protection and Enforcement Division,

On behalf of The Arc San Francisco, I am expressing our support for Cruise's application to serve the entire city of San Francisco, 24/7. It is our understanding that the goal of Draft Resolution TL-19145 is to create more accessible, affordable, and sustainable transportation options for every San Francisco resident.

The Arc San Francisco is a collaborative community of participants, support professionals, families and other stakeholders working together to provide accessible, inclusive services while advocating for disability justice. We envision an equitable and just world where all individuals with developmental disabilities can thrive. The Arc San Francisco appreciates the commissioners' consideration of Draft Resolution TL-19145 and urges them to pass it next month.

A total of 46 million people in the US are underserved by traditional public transportation, with many transportation networks struggling to accommodate wheelchair users or those with physical limitations. Cruise's ridehail service and self-driving technology will help to increase accessible and inclusive transportation options, providing the communities we serve increased independence.

Cruise has demonstrated an active commitment to ensuring its services are accessible to everybody who needs them. With this in mind, our organization urges the commission to approve Cruise's application to provide 24/7 service citywide so that Cruise can offer those with physical limitations and mobility challenges access to better transportation options.

Thank you for your time and consideration!

Best,

Recoverable Signature

X
