Question 2:

How should the Joint IOUs, CCAs [and/or the Commission] coordinate the BioMAT program queue?

BioMAT Queues

	IOU Tariffs Currently	Proposed
Applicant submits Program Participation Request (PPR)	To IOU	To Contracting Counterparty (i.e., IOU or CCA)
Submission Platform (Accion)	IOU Accion Platform (linked from IOU website)	CCA provided access to Accion Platform for PPR submission to CCA (either CCA has own page or access through IOU page)
Obtaining position in queue	PPR deemed complete by IOU, IOU provides position in applicable Fuel Resource Category Queue	PPR deemed complete by IOU or CCA, submit to Energy Division, which tracks and oversees queue, and places Applicant in applicable IOU's Fuel Resource Category Queue
Execution of contract/attribution of capacity	Execution of BioMAT contract results in Contract Capacity being attributed to the Fuel Category within the IOU's target	Unchanged - but Energy Division tracks and oversees attribution of capacity to IOU's overall procurement target/Fuel Category

Tariff/PPA Requirements

	IOU Tariffs/PPA Currently	Proposed
Interconnection requirements	As specified in tariff	Unchanged
Attestations	To establish eligibility	Unchanged
PPR Fee	$2 per kW multiplied by Project Contract capacity*	Unchanged
Category 3 with no interconnection study - Deposit	As specified in tariff	Unchanged
PPR Form	As specified in tariff	Unchanged
Supporting Documentation	As specified in tariff	Unchanged

*Question: Does IOU keep PPR Fee to reimburse for administrative expenses?

Pricing

	IOU Tariffs Currently	Proposed
Administration of pricing mechanism for statewide pricing categories	Jointly managed by IOUs	Managed by Energy Division and published through Accion sites
