Issue
Father concerned about the school and children's safety. When is the CPUC going to issue a statement? He would someone other than The Gas Company to make a statement. He has a six and 12 year old at a school less than 2 miles from the storage site. Is the level of gas safe? My child has had a bloody nose. Why is this taking so long? "I don't understand how a company like southern, California gas company is okay to be doing something without no plan or no resolution that all out of stick something like this unless it's going to take several months to do it or they don't even know actually to be honest, right?"

Comments
Monioring the situation with DOGR Sent summary to supervisors Tong and Epuna. Sent him SCG Alisio Canyon Incident websit link  FYI, <a href="https://www.socalgas.com/newsroom/aliso-canyon-updates">https://www.socalgas.com/newsroom/aliso-canyon-updates</a>
