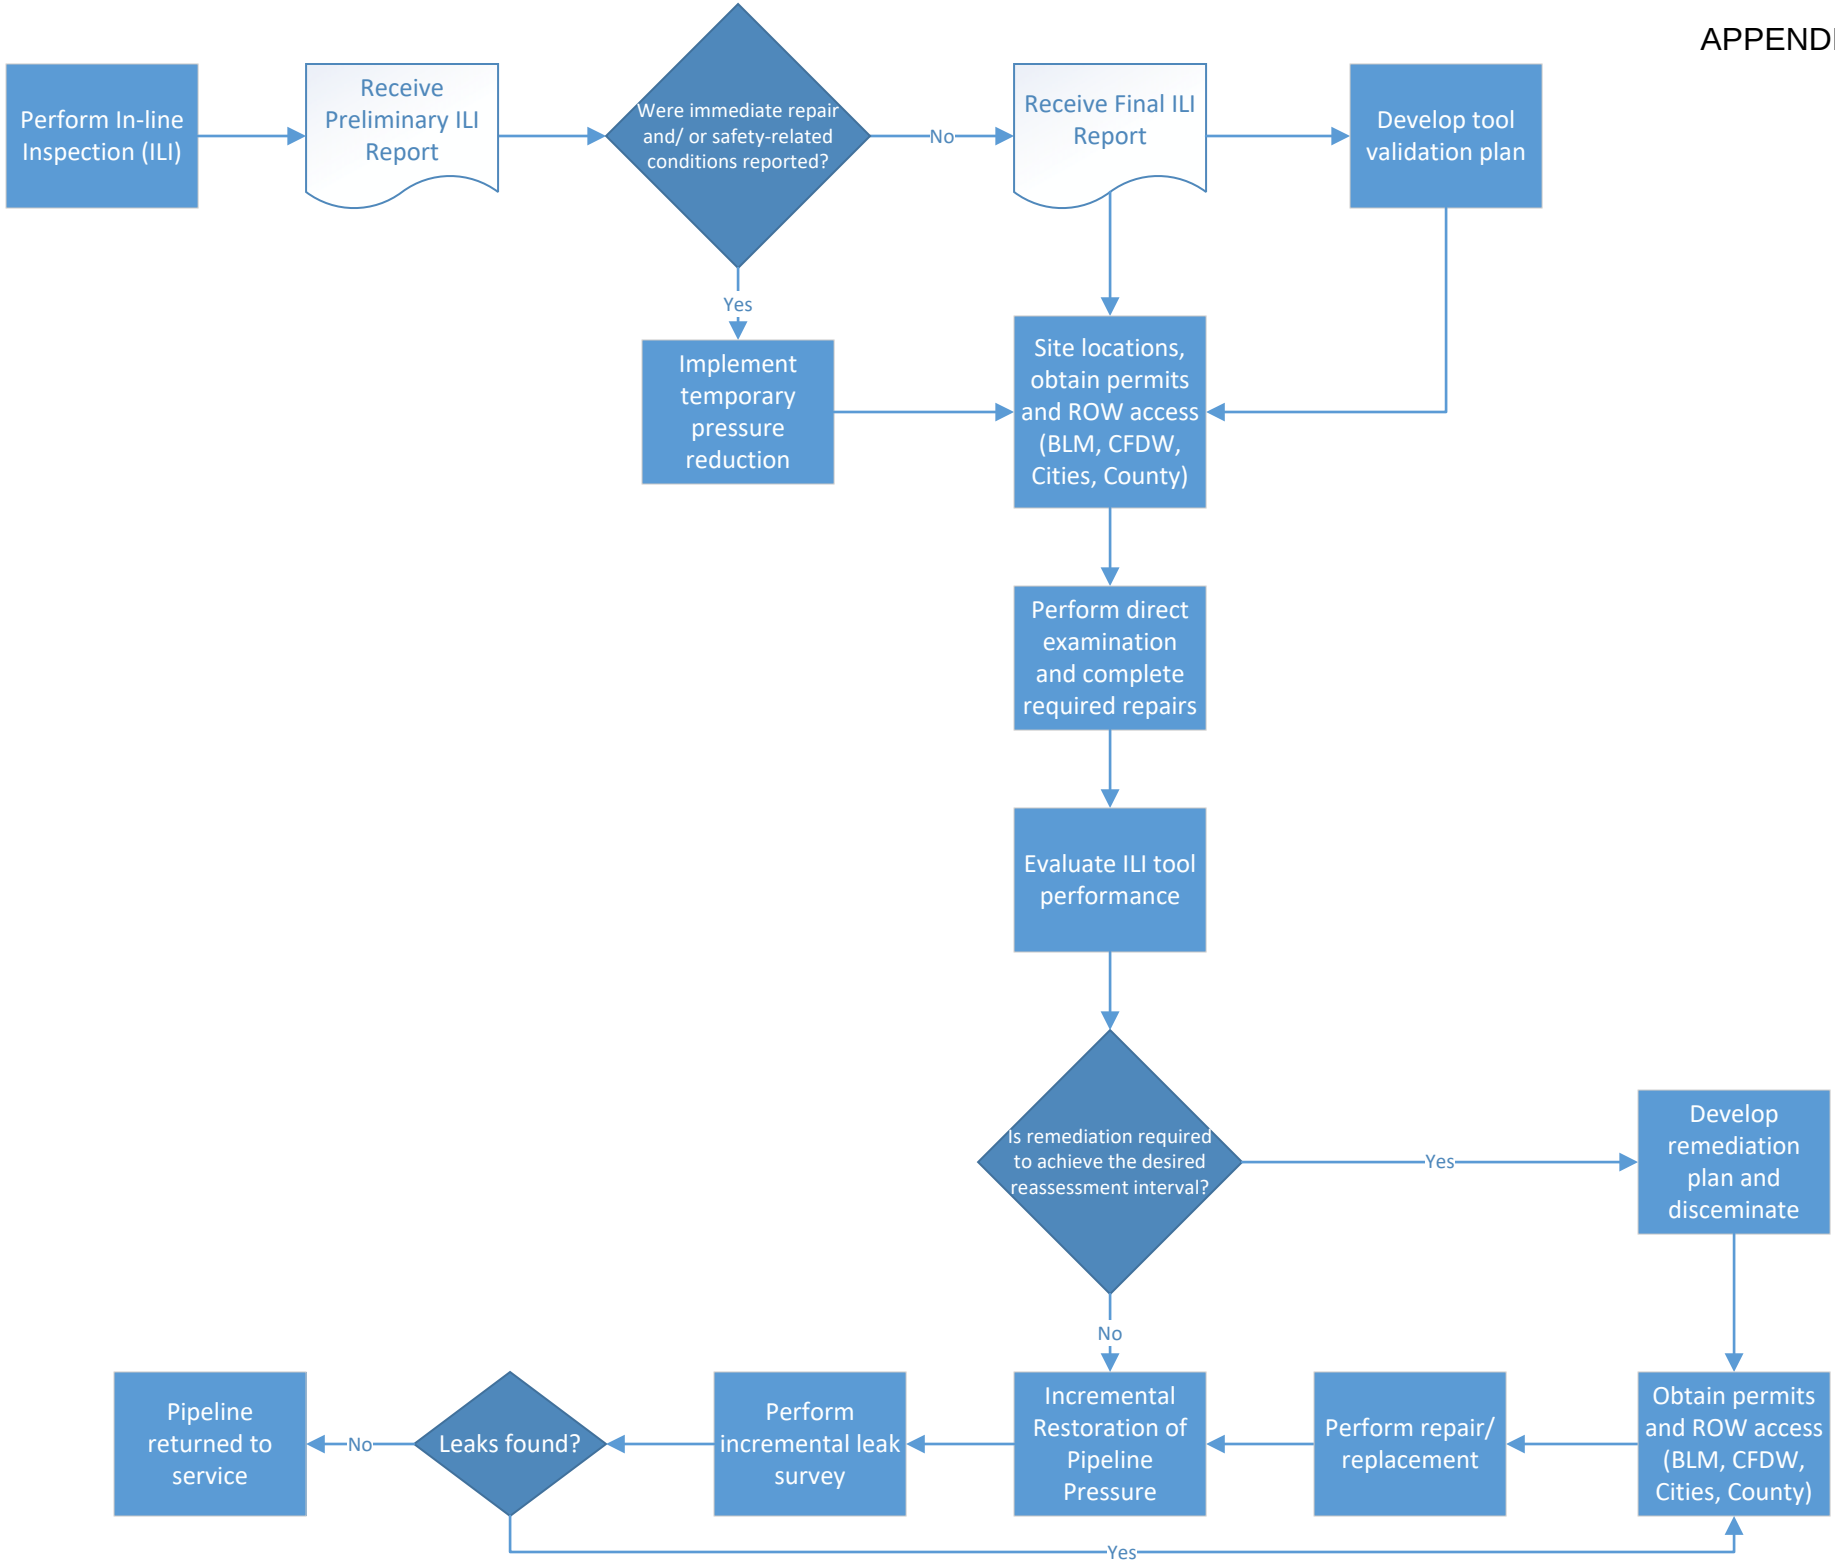
APPENDIX A



Perform In-line Inspection (ILI)
Receive Preliminary ILI Report
Were immediate repair and/ or safety-related conditions reported?
No
Yes
Receive Final ILI Report
Develop tool validation plan
Implement temporary pressure reduction
Site locations, obtain permits and ROW access (BLM, CFDW, Cities, County)
Perform direct examination and complete required repairs
Evaluate ILI tool performance
Is remediation required to achieve the desired reassessment interval?
Yes
Develop remediation plan and disceminate
No
Obtain permits and ROW access (BLM, CFDW, Cities, County)
Perform repair/ replacement
Incremental Restoration of Pipeline Pressure
Perform incremental leak survey
Leaks found?
No
Pipeline returned to service
Yes
