Douglas Ito, Director
Consumer Protection & Enforcement Division
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102

Dear Director Ito:

My name is Matt Ater and I'm writing to you in support of Cruise's application to expand its services in San Francisco under the CPUC's Driverless AV Passenger Service Deployment program.

I believe having access to fully driverless vehicles will offer San Francisco residents, including some with disabilities, a freedom they haven't experienced before. With this proposed expansion, the community will be able to take advantage of these benefits immediately. I am also excited that Cruise is working with General Motors to develop the first fully-autonomous wheelchair-accessible vehicle, the Origin Mobility.

I urge the commission to vote to approve Cruise's citywide expansion so they can advance their vision for providing a safe, accessible and dignified transportation experience to all.

Thank you,

Matt Ater
