Voice Options Program Summary July 6, 2023

Current Month Accomplishments

- The Voice Options Program (VOP) exceeded the initial program goal of serving 500 consumers and moved 2,202 individuals through Short-Term Loans into the Long-Term Loan process.
- 52 consumers received their Long-Term Loan iPads with a speechgenerating application.
- A provider call was held on June 7. Status of the VOP was discussed along with projections for the next fiscal year
- Working on new grant contracts with providers in anticipation of the IAA being signed and executed.
- Working on stakeholders meeting to be held in August.
- Working on regional distribution of devices for fiscal year 23-24 and anticipate provider feedback to reach underserved regions.

Statistics from Completed Datasets: Summary

- The Voice Options Program offers in-person services to 99 percent of Californians through 29 Program Providers spanning across 47 counties and offers services virtually and by mail to ensure comprehensive statewide coverage across California.
- Since Program launch on July 1, 2020, the VOP has served consumers ranging in age from 18 months to 88 years and encompassing over 50 types of speech-related disabilities and disorders.
- 2,202 consumers have completed their Short-Term Loans and have requested Long-Term Loans.
- 1,957 datasets have been submitted for completed Long-Term Loans.
- 38 percent of referrals are made by Speech Language Pathologists and
 14 percent are made by Independent Living Centers
- 71 percent of consumers made telephone calls during the Short-Term Loan period. 98 percent of these phone calls were considered successful by consumers, many of whom indicated they had never made a phone call prior to entering the Voice Options Program.
