Email*: Dear Sir,

In response to the installation of a high voltage line and Towers across the back of my property, I would be devastated. I am opposed to not only to the sight of said lines and towers but also to the possible effects of the electro magnetic field on our health. I thought said property because there were no unsightly Towers in view, as opposed to much cheaper parcels around other areas in Leona Valley. In closing, I ask one question, how would you like to have high tension lines and a Tower in your back yard?

Sincerely,

Gary Hoppe
