Address*: 40256 107th Street West
City, State, Zip Code*: Leona Valley CA 93551
Telephone Number*: 661-270-3067

Dear Forest Service, Aspen Environmental Group
or whoever it may concern. I am a resident of
Leona Valley because it is beautiful and peaceful.
The alternative site proposal is an outrage. The
community of Leona Valley will not accept
being pushed around because of radical environmentalists.
The US Forest Service has an abundance of land
that could be easily be used (as previously proposed
by Edison) What I don’t understand is that Americans
own Forest Land not the Government. Furthermore,
what difference does it make whether a DB Bulldozer
runs through a community or the forest? The
environmental impacts are substantial in either case. So
please don’t force it on average citizens like myself.
Why don’t you environmentalists run it through your backyard?

*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be postmarked by September 18, 2006. Comments may also be faxed to the project hotline at (661) 215-5152 or emailed to antelope-pardee@aspeneg.com.
I’ll tell you why not, because you have power that is definately abused. This abuse is supported by politicians, developers and radical environmental groups. I myself enjoy our national forest and would hate to see a project of this magnitude ruin it. But forcing this on average ordinary people that generally have a small voice in protest just isn’t right.

Thank You

Sincerely, [Signature]
