SAN FRANCISCO, CA 94102-3298

May 2, 2011

Ms. Milissa Marona  
Regulatory Policy and Affairs  
Southern California Edison  
2244 Walnut Grove  
Rosemead, CA 91770

**RE: Review of Southern California Edison's (SCE)  
Company's Application (A. 10-12-016) for a Permit to  
Construct electrical facilities for the Downs Substation  
Project.**

Dear Milissa:

Southern California Edison (SCE) submitted Application 10-12-016 for construction and operation of an electrical substation. The Energy Division has completed its review of SCE's application to construct the Downs Substation project. With the supplemental data and information provided by SCE, the Energy Division finds that the Application and Proponent's Environmental Assessment contain sufficient information to satisfy the requirements of the Commission's Information and Criteria List and can now be deemed complete. Please note that this determination has been made with the understanding that the Energy Division may request additional data, as necessary, to review and analyze the environmental effects of the proposed project in accordance with requirements of the California Environmental Quality Act.

Please do not hesitate to call me at (415) 703-1956 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Chiang".

Eric Chiang
