Question 26-10:

Intersection of Garfield Ave/Via Campo

The Traffic Study indicates that the intersection of Garfield Ave/Via Campo would degrade to LOS F under future conditions; however, the existing LOS at this intersection is LOS F. Modify the text in the Traffic Study to reflect this.

Response to Question 26-10:

Page 24, paragraph 2 has been revised to exclude the intersection of Garfield Avenue/Via Campo as an intersection that would degrade to LOS F under future (2018) without-project conditions. In addition, page 27, paragraph 2, has been revised to exclude the intersection of Garfield Avenue/Via Campo as an intersection that would degrade to LOS F under future (2019) without-project conditions.
