Temporary Retaining Walls:
Near existing lattice towers during site grading.
Maximum heights of approximately 4'-6'.

Permanent Retaining Wall:
- Length = 1500'
- Height = 18' max.
- Substation perimeter wall (10') to be mounted on top.

Permanent Retaining Wall:
- Length = 250'
- Height = 16' max.
- Substation perimeter wall (10') to be mounted on top.
