Thank you for participating in tonight’s public scoping meeting. We would like to hear your comments.

Note: Before including your address, telephone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

COMMENTS

Under cumulative effects:

1. 2015 Montebello Hills/LincolnFire: Consider loss of habitat for the California gnatcatcher, on-going loss of habitat due to lingering drought, proven fire hazard along telecommunications Route 3 near Whittier Narrows Dam.

2. PEA Mesa 500kV Substation Project Volume 3 March 2015:

p. 4.18-31 This section mentions the “Montebello Hills Master Planned Community.” This should be changed to “Montebello Hills Specific Plan” to reflect the actual project name used under CEQA.

3. PEA (same reference above) identified significant and unavoidable impacts to...
Air quality from the Monterey Park Market Place and the Montebello Hills Master Planned Community. These impacts were due to "potential overlap in construction activities." The conclusions reached in the applicants' PEA should be included in the conclusions by the CPUC's DEIR.

4. Please EXTEND the public comment period for this project.
