Post Office Box 800  
Rosemead, CA 91770

**RE: Determination of Completeness, Southern California Edison's Application to Construct the Devers Mirage Subtransmission System Split project.**

Dear Melissa:

Southern California Edison Company (SCE) submitted Application 08-01-029 for a Permit to Construct electrical facilities with voltages between 50 kV and 200 kV: Devers-Mirage 115 Kilovolt Subtransmission System Split Project. The Energy Division has completed its review of SCE's application to construct the Devers-Mirage Subtransmission Line project. With the supplemental data and information provided by SCE, the Energy Division finds that the Application and Proponent's Environmental Assessment contain sufficient information to satisfy the requirements of the Commission's Information and Criteria List and can now be deemed complete. Please note that this determination has been made with the understanding that the Energy Division may request additional data, as necessary, to review and analyze the environmental effects of the proposed project in accordance with requirements of the California Environmental Quality Act.

Please do not hesitate to call me at (415) 703-1956 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Chiang", written over a horizontal line.
