Re: **Docket Number A.08-05-039**

Dear Mr. Uchida:

Just looking at the aerial map makes it obvious that route 3 should be chosen for the electrical lines. It goes through uninhabited land, at least uninhabited by humans. It is time that humans became part of the considerations. The fairy shrimp and/or other animals that live there can live just fine around the power poles.

Sincerely,

A handwritten signature in cursive script that reads "Lindsay Turner". The signature is written in black ink and is positioned above the printed name.
