Dear Owner/Operator of a Small Natural Gas and Propane Gas Pipeline Systems:

The Gas Safety and Reliability Branch of the California Public Utilities Commission (CPUC) is conducting **free, two-day seminars** to assist natural gas and propane system operators to better understand the federal safety requirements for natural gas and propane distribution systems. Each seminar will cover the same topics and is designed to help operators understand state and federal gas pipelines safety regulations and better prepare for CPUC inspections. This will include topics such as corrosion control, leakage surveys, operation and maintenance plans, Operator Qualification (OQ), Distribution Integrity Management Plans (DIMP), the transfer of master-meter systems at mobile home parks to gas and electric corporations and related items.

To accommodate operators throughout the state, there will be two seminars offered on the following dates, times and locations:

**October 7 & 8, 2014, Tuesday & Wednesday,**  
Bonderson Hearing Room, 901 P Street, Sacramento, CA 95814
**October 9 & 10, 2014, Thursday & Friday,**  
1350 Front Street, Auditorium Room B-109, San Diego, CA 92101

1st day: 8am to 5pm  
2nd day: 8:30am to 12:30pm

Register early as **seating is limited.** Registration can be made on the CPUC website at [https://ia.cpuc.ca.gov/pipelinesafetyseminar/](https://ia.cpuc.ca.gov/pipelinesafetyseminar/); Or to register by phone or for any questions, contact Rowena Nebreda at (415) 703-2369. Visit the CPUC website for more information and updates.

**NOTE:** Attending the CPUC seminars **does NOT** qualify attendees under the requirements of Subpart N - Operator Qualification.
