

CHAPTER 6

Other Process-related Data Needs

In accordance with the requirements of the California Public Utilities Commission's (CPUC's) Working Draft Proponent's Environmental Assessment (PEA) Checklist for Transmission Line and Substation Projects, November 2008 (PEA Checklist) and General Order 131-D, a list that includes all parcels within 300 feet of any Proposed Project component of the Banducci Substation Project (including associated facilities) was prepared and was provided under separate cover. The list includes the Assessor's Parcel Number, owner mailing address, and the physical address of each property within the 300-foot radius. The list is intended to allow for future public noticing of all those identified with regard to the proposed Banducci Substation Project.

No other process-related data needs were identified for this Proponent's Environmental Assessment (PEA). This PEA contains information responsive to the requirements of General Order 131-D, Appendix G of the State CEQA Guidelines and the CPUC's PEA Checklist. No significant and unavoidable impacts would result from Proposed Project implementation, and all potential impacts identified for the Proposed Project would be less than significant.
