

Michael Clayton & Associates

The **existing view** to the south-southeast toward I-8 and the bridge over La Posta Road, from KVP 79 on La Posta Truck Trail, approximately 0.3 mile north of Sandy Creek Road. While I-8 and the La Posta Road overpass are prominent, built features, and there are several rural residences in the valley north of I-8, the landscape is predominantly natural in appearance. The BCD South Option route would pass through the valley adjacent to La Posta Truck Trail before spanning I-8 and ascending the ridges to the south.
