

Michael Clayton & Associates

The **existing view** to the north from Key Viewpoint 68 on Lyons Valley Road, approximately 2.75 miles east of the intersection with Honey Springs Road. This view captures the curvilinear form of Lyons Valley Road and the angular to horizontal ridges that define Lyons Valley. A wood-pole transmission line parallels Lyons Valley Road before diverging from the road to ascend the rocky ridge east of Gaskill Peak. With the exception of the road and transmission line, the landscape is predominantly natural in appearance.
