DATA REQUEST SET A.13-10-020 WODUP ED-SCE-01

To: ENERGY DIVISION
Prepared by: Ryan Stevenson
Title: Principal Advisor
Dated: 02/21/2014

Question PD-14:

Project Description

PD-14 Please provide updated mapbooks with all available new information incorporated at least 5 days prior to the first scoping meeting, which we currently expect to occur in early to mid-April.

Response to Question PD-14:

At this time, it's not clear if any portion of the refined engineering effort that SCE is currently performing will be ready by early to mid-April and therefore available to update the mapbooks. If the updated engineering information is available by early to mid-April, SCE will provide updated mapbooks. If the updated engineering is not available, then SCE recommends using the mapbooks previously provided. SCE will provide updates on the status of its engineering efforts during the biweekly meetings and more frequently leading up to the first scoping meeting.
