

PUBLIC NOTICE

Notice of Supplemental Scoping San Diego Gas & Electric Company (SDG&E) Master Special Use Permit and Permit to Construct Power Line Replacement Projects

The California Public Utilities Commission (CPUC) and United States Forest Service (Forest Service) are providing a supplemental scoping period to provide the public with an additional opportunity to comment on the topics and alternatives that should be included in the Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) being prepared for the subject project.

Supplemental Scoping Meeting

Please join us at the location listed below. Your attendance will provide you with additional opportunities to comment on the scope and content of the environmental information to be included in the Draft EIR/EIS being prepared for the project.

What:	Supplemental Scoping Meeting for the SDG&E Master Special Use Permit and Permit to Construct Power Line Replacement Projects
Where:	Alpine Community Center, 1830 Alpine Boulevard, Alpine, CA
When:	Wednesday, February 19, 2014. 5:00 p.m. to 7:00 p.m.

Supplemental Scoping Comments

The Scoping Report, dated January 15, 2014, provides information about the scoping process conducted to date, a list of issues and concerns, as well as alternatives identified during the initial public scoping period - September 23, 2013 through November 7, 2013. As part of the initial public scoping conducted for the subject project and required by CEQA, the CPUC prepared a Notice of Preparation (NOP, September 23, 2013) and, as required by NEPA, the Forest Service published a Notice of Intent (NOI) in the Federal Register (FR) for preparation of a joint EIS/EIR (FR Vol. 78, No. 184, page 58270, September 23, 2013).

Information that will be most useful during this supplemental scoping period would be descriptions of additional concerns about the impacts of the proposed project and suggestions for alternatives that should be considered.

The Scoping Report is available on the project website located here: <http://www.cpuc.ca.gov/environment/info/dudek/CNF/ScopingReport2014.htm> as well as at the environmental document repositories listed at the end of this notice.

In addition, information regarding the project background is provided on the project website homepage: <http://www.cpuc.ca.gov/environment/info/dudek/CNF/CNF.htm>.

All supplemental scoping comments must be received by March 7, 2014. You may submit comments in a variety of ways: (1) by U.S. mail, (2) by electronic mail (email), or (3) by attending the public scoping meeting and handing in written comments at the scoping meeting.

By U.S. Mail: If you send comments by U.S. mail, please use first-class mail and be sure to include your name and a return address. Please send written comments on the scope and content of the EIS/EIR to: Lisa Orsaba, California Public Utilities Commission/Will Metz, United States Forest Supervisor, Cleveland National Forest, c/o Dudek, 605 Third Street, Encinitas, California 92024.

By Electronic Mail: Email communications are welcome; however, please remember to include your name and return address in the email message. Email messages should be sent to cnfmsup@dudek.com, with a subject line “SDG&E Master Permit”.

Comments received during scoping, including names and addresses of those who comment, will be part of the public record for this proposed project. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the respondent with standing to participate in subsequent administrative review or judicial review of the Forest Service decision. This project will follow the predecisional administrative review process pursuant to 36 CFR 218, Subparts A and B.

Document Repositories

The Scoping Report and documents prepared by CPUC and Forest Service to date for the MSUP/PTC Power Line Replacement Projects are available in the repositories listed below.

Environmental Document Repositories

Dudek	605 Third Street, Encinitas, California	760.942.5147

Future Steps in the Planning Process

An important part of the environmental planning process is engaging the public and relevant agencies from the earliest stages of and throughout the planning process to address issues, comments, and concerns. Figure 1 provides an overview of the EIR (CEQA) and EIS (NEPA) processes for the Master Special Use Permit and Permit to Construct Power Line Replacement Projects.
