Re: Data Request No. 4 for the Sanger Substation Expansion Project. A. 15-09-012

Dear Ms. Lambert,

Upon further review of Pacific Gas and Electric Company's (PG&E's) comments to the working draft of the Project Description of the Initial Study/Mitigated Negative Declaration (IS/MND) for the Sanger Substation Expansion Project, the California Public Utilities Commission's (CPUC's) Energy Division requests the information contained in Attachment A to this letter.

One set of responses should be submitted to the Energy Division and another to Silvia Yáñez at Ecology and Environment, Inc. in San Francisco in hard copy and electronic format. To maintain the current schedule for preparation of the Initial Study/Mitigated Negative Declaration (IS/MND), we request that PG&E respond to this data request as soon as the information is available, within the next five calendar days. Separate submittals are acceptable if it expedites responding to this data request. Please inform us as soon as possible if you cannot provide responses by this date. Delays in responding to this data request may cause delays in preparation of the IS/MND.

The Energy Division reserves the right to request information at any point in the environmental review process and during construction of the project, if PG&E's PTC is granted. Please direct questions related to this application to me at (415) 703-2068 or Billie.Blanchard@cpuc.ca.gov.

Sincerely,

Billie Blanchard

Billie Blanchard
Project Manager
Energy Division
California Public Utilities Commission

CC: Mary Jo Borak, CPUC Energy Division, Supervisor
Molly Sterkel, CPUC Energy Division, Program Manager
Greg Heiden, CPUC Legal Division, Public Utilities Counsel
Silvia Yáñez, Ecology & Environment, Project Manager
Kristi Black, Ecology & Environment, Deputy Project Manager

Attachment A: Data Request #4

Attachment A: Sanger Substation Expansion Project Data Request # 4

Data requests for Pacific Gas and Electric Company’s (PG&E’s) Sanger Substation Expansion Project are described in detail in the table below.

No.	Reference	Description of data being requested
Project Description		
1	May 27 th Comments to IS/MND Project Description working draft; April 29 th Data Response, Item 6.	<p>Provide more detail about the proposed receiving antenna system installation at the Fence Meadow Repeater Station.</p> <p>In comments to the draft Project Description for the IS/MND, PG&E stated that a receiving antenna system would be installed at the Fence Meadow Repeater Station. This new information conflicts with response to Data Request #2, which stated that the proposed new microwave path “will not require other upgrades at the receiving end, since this infrastructure is already in place.” In order to include the new proposed receiving antenna system installation in the IS/MND analysis, provide the following information:</p> <ul style="list-style-type: none"> a) Confirm the location of the Fence Meadow Repeater Substation (See Attachment B for detail). Publicly available data indicate the following location: <ul style="list-style-type: none"> - Latitude: 36.96140 - Longitude: -119.17500 b) Confirm that the proposed receiver antenna system would be installed in an existing tower. c) Describe the proposed receiver antenna system and how it would be installed. Provide the estimated duration for this new activity as well a schematic of the proposed antenna system. d) Provide the number of heavy-duty and light-duty vehicles required for the proposed antenna installation, as well as the proposed transportation route to the Fence Meadow Repeater Station. e) The Fence Meadow Repeater Station is located in the U.S. Forest Service (USFS) Sierra National Forest. Confirm what level of approval or coordination with the USFS would be required for the proposed receiver antenna installation.
2	May 27 th Comments to Project Description working draft	<p>Provide updated GIS information to support PG&E’s revised disturbance acreages.</p> <p>In comments to the draft Project Description for the IS/MND, PG&E revised disturbance acreage information. Provide the revised GIS data to support the proposed revisions.</p>

Attachment B: Fence Meadow Repeater Station Location

Attachment B: Fence Meadow Repeater Station Location.
