DATA REQUEST SET A1512007 ED-SCE-02

To: ENERGY DIVISION
Prepared by: Alisa Krizek
Title: Environmental Project Manager
Dated: 05/09/2016

Question 30:

The types of hazardous materials that are likely to be required (albeit in limited amounts) for Project construction, operation, and maintenance are likely to be similar across SCE's projects. The PEA indicates that Material Safety Data Sheets (MSDSs) would be made available at the construction site for all crew members pursuant to their work on this project. Please provide copies of or links to online locations of MSDSs for the most likely/most common hazardous materials to be used.

Response to Question 30:

Table 4.8-4 of the PEA provides a general list of products anticipated to be used during construction. Attached are the Safety Data Sheets (SDSs) for these materials, except paint and petroleum products as these materials are too general to provide a specific SDS. Please note that the brands of materials used during construction of the Project may differ from the attached SDSs, but would contain similar information.

Table 4.8-4: Hazardous Materials Typically Used for Construction

| Hazardous Materials | |
|------------------------------------|-----------------------------|
| 2-Cycle Oil | Lubricating Grease |
| ABC Dry Chemical Fire Extinguisher | Mastic Coating |
| Acetylene Gas | Methyl Alcohol |
| Air Tool Oil | Oxygen |
| Antifreeze | Paint |
| Automatic Transmission Fluid | Paint Thinner |
| Battery Acid | Petroleum Products |
| Canned Spray Paint | Puncture Seal Tire Inflator |
| Connector Grease | Safety Fuses |
| Contact Cleaner 2000 | Safety Solvent |

| | |
|--------------------------|--------------------|
| Diesel Fuel and Gasoline | Starter Fluid |
| Gas Treatment | Wagner Brake Fluid |
| Jet A Fuel | WD-40 |
| Insulating Oil | |
