Other Information and Background:

At President Picker's request, the [DER Action Plan](#) was developed by Energy Division to provide a coherent vision for the CPUC's activities on distributed resources and facilitate the coordination of numerous proceedings that affect DER deployment. The intent is for the DER Action Plan to be a "living document" that will continue to be refined over time. **This workshop is an opportunity to discuss the draft DER Action Plan.**

Stakeholders and interested parties were invited to submit their pre-workshop comments by close of business (COB) on Tuesday, October 11 **and their post-workshop comments by COB on Monday, October 31** at this [on-line portal](#). Following the workshop and with subsequent additional refinements, Pres. Picker is looking for endorsement of the DER Action Plan at an upcoming Commission meeting.
