

California Public Utilities Commission

Join the California Teleconnect Fund Administrative Committee Help Bridge California's Digital Divide

The California Public Utilities Commission (CPUC) is seeking to fill vacancies on the California Teleconnect Fund Administrative Committee (CTF-AC). The California teleconnect Fund program (CTF) provides discounted telecommunications and broadband services to eligible organizations across the state.

What is CTF-AC?

Established under Public Utilities Code Section 280(a), the CTF-AC advises the CPUC on the development, implementation, and administration of the program. The committee supports universal service by helping ensure schools, libraries, hospitals, health clinics, and community organizations receive discounted telecommunications services, and to carry out the program under the CPUC's direction, control, and approval.

The CTF-AC meets quarterly where updates on the AC, CTF program, and legislations are shared. The next upcoming quarterly meeting will on March 2, 2026, which we encourage you to join.

Why You Should Consider Serving on the CTF Administrative Committee

Your perspective is essential to ensuring California's most critical institutions remain connected. By serving on the CTF-AC, you bring the real-world needs of your sector, whether community based organizations, deaf/hard of hearing, education, local exchange carriers, public hospitals, public libraries, or rural Clinics/telemedicine, directly into statewide decision-making. This committee helps shape how discounted broadband and telecommunications services are delivered to organizations like yours, especially those in rural or underserved areas. Your expertise ensures the program remains responsive, equitable, and effective.

What You Gain by Serving

- A meaningful voice in how vital connectivity resources reach your sector.
- The ability to advocate for the communities and institutions you serve every day.
- Insight into statewide broadband policy and upcoming legislative and regulatory changes.
- Collaboration with leaders across eligible CTF segments.

Protecting California since 1911

The CPUC regulates privately owned electric, natural gas, telecommunications, water, railroad, rail transit, and passenger transportation companies.

@CaliforniaPUC
