The California Public Utilities Commission (CPUC) will hold its annual public workshop to facilitate collaboration among regional consortia, stakeholders, local governments, existing facility-based broadband providers, and consumers regarding cost-effective strategies to reach unserved areas.

The California Advanced Services Fund (CASF) promotes broadband adoption and infrastructure deployment in unserved areas with a goal of providing broadband access to no less than 98 percent of California households. The workshop will be via remote access only. Webcast information and other access details will be posted soon!

If you have any questions about the 2022 Annual Workshop, please email CASF_Workshop@cpuc.ca.gov
