### Passenger Transportation Carrier Advice Letter (AL) Summary Form

#### PASSENGER TRANSPORTATION CARRIER FILER INFORMATION

Date of Submission:	April 15, 2026	Date AL served on parties:	April 15, 2026
Carrier Name:	Uber Technologies, Inc.	PSG #:	0038150-P
DBA Name:	Uber Technologies, Inc.		
Address:	1725 Third Street		
City:	San Francisco	State:	CA
		ZIP Code:	94158
Filer's Name: First, Last	Justine Woodland		
Filer's Email:	jwoodland@uber.com	Filer's Phone:	(415) 494-7405

#### AL INFORMATION

Advice Letter #:	Requested Effective Date:	AL Tier:
40	May 15, 2026	<input type="checkbox"/> I <input checked="" type="checkbox"/> II <input type="checkbox"/> III <input type="checkbox"/> Information Only
Subject of filing: Uber Technologies, Inc.'s Advice Letter 40		
Authorization for filing: Resolution #, Decision #, etc. D.20-03-007, D.21-03-005, D.21-11-004, and D.23-02-02		
Notes/comments: Other information & reference to advice letter, etc. Uber Technologies, Inc.'s Advice Letter No. 40 requesting an offset against the quarterly Access For All Fee payments collected for San Francisco County and San Mateo County.		

#### SUBMISSION INFORMATION

**The cut off time to be considered filed the same day as submitted is 5:00 PM (Pacific Standard Time). Files submitted after 5:00 PM or on a non-business day will be considered filed on the following business day.**

**Re: Uber Technologies, Inc. - Advice Letter No. 40 (Q1 2026)**

## **I. Offset Request**

Pursuant to Decisions (D.) 20-03-007, D.21-03-005, D.21-11-004, and D.23-02-024, Uber Technologies, Inc. (“Uber”) submits this Advice Letter No. 40 to request to offset Quarter 1 of 2026 TNC Access For All Fund<sup>1</sup> fee payments by the amounts Uber spent to improve wheelchair accessible vehicle (“WAV”) service in Quarter 1 of 2026. The requested effective date of this advice letter is May 15, 2026 (30 days from date of filing).<sup>2</sup>

The offset amounts requested by county are as follows:

County	Offset Expenses (\$)	Percent Allowed (%) <sup>3</sup>	Offset Requested (\$)	County	Offset Expenses (\$)	Percent Allowed (%)	Offset Requested (\$)
ALAMEDA	\$ -	%	\$ -	ORANGE	\$ -	%	\$ -
ALPINE	\$ -	%	\$ -	PLACER	\$ -	%	\$ -

<sup>1</sup> S.B. 1376, Cal. Legis. Serv. Ch. 701 (2018); *see also* Pub. Util. Code § 5440.5(a)(1)(B)(ii).

<sup>2</sup> As a good faith participant in the TNC Access for All program, Uber submits this advice letter without any request for confidential treatment. While Uber maintains that certain information contained herein is commercially sensitive and constitutes protectable trade secrets, Uber submits this information unredacted in an effort to advance the goals of this program. Uber reserves its right to seek confidential treatment of this type of information in the future.

Per D.20-03-007, D.21-03-005, D.21-11-004, and D.23-02-024, Uber provides the following documents in support of its request as indicated in the summary table below:

Criteria	Must Demonstrate	Documentation Included (Y/N)
<b>1. Presence and availability of on-demand and pre-scheduled<sup>4</sup> WAVs<sup>5</sup></b>	(a) the number of WAVs in operation - by quarter and aggregated by hour of the day and day of the week; (b) the unique number of WAVs in operation – by quarter and by hour of the day and day of the week; and (c) the number and percentage of WAV trips completed, not accepted, cancelled by passenger, cancelled due to passenger no-show, and cancelled by driver – by quarter and aggregated by hour of the day and day of the week; (d) the total WAV trips requested and completed broken out by Census Tract; and (e) operating hours for each geographic area	<b>Y</b>
<b>2a. Improved level of service (on-demand WAVs)<sup>6</sup></b>	Both the Offset Time and the Trip Completion Standards are satisfied: (a)(1) Offset Time Standard & WAV Response Times <sup>7</sup> : Meet or exceed both the relevant Level 1 and Level 2 Response Time Benchmarks for a given quarter in a given geographic area within the Offset Response Time Benchmarks (ORTB). The schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request in that quarter (see Table A)	<b>Y</b>

<sup>4</sup> As Uber has explained in previous submissions, Uber does not currently have a pre-scheduled WAV offering. As such, information and data tables relating to pre-scheduled trips are marked “N/A”.

<sup>5</sup> D.20-03-007 Ordering Paragraph 1; D.23-02-024 Ordering Paragraph 11 and 12.

<sup>6</sup> D.21-11-004 Ordering Paragraph 1-3, 6, and 7.

<sup>7</sup> D.21-11-004 Ordering Paragraph 1, 2, and 3.

	<p>(b.1) Trip Completion Standard<sup>8</sup>: Meet or exceed the applicable minimum percentage of trip requests completed (see Table B), and</p> <p>(b.2) Either (i) a greater number of completed trips than in the immediately prior quarter, or (ii) a greater number of completed trips than in the immediately prior year's same quarter, if sufficient data is available. A TNC may elect to be compared to this prior quarter or prior year's same quarter, if applicable (see Table C). The schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request.</p>	
<b>2b. Improved level of service (pre-scheduled WAVs)<sup>9</sup></b>	<p>Both the Pickup Delay Benchmark and the Trip Completion Standards are satisfied:</p> <p>(a) Pickup Delay Standard within the Pickup Delay Benchmark<sup>10</sup>: Meet or exceed both the relevant Response Time Benchmarks for a given quarter in a given geographic area within the Pre-scheduled Pickup Delay Benchmarks (PDB). The schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request in that quarter (see Table D)</p> <p>(b.1) Pre-scheduled Trip Completion Standard<sup>11</sup>: Meet or exceed the applicable minimum percentage of trip requests completed (see Table E), and</p> <p>(b.2) Either (i) a greater number of completed trips than in the immediately prior quarter, or (ii) a greater number of</p>	<b>N/A</b>

<sup>8</sup> D.21-11-004 Ordering Paragraph 6 and 7.

<sup>9</sup> D.23-02-024 Ordering Paragraph 1-5.

<sup>10</sup> D.23-02-024 Ordering Paragraph 4.

<sup>11</sup> D.23-02-024 Ordering Paragraph 5.

	completed trips than in the immediately prior year's same quarter, if sufficient data is available. A TNC may elect to be compared to this prior quarter or prior year's same quarter, if applicable (see Table F). The schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request.	
<b>3. Efforts to publicize and promote available WAV services<sup>12</sup></b>	<p>Evidence of outreach efforts such as a list of partners from disability communities, how the partnership promoted WAV services, and marketing or promotional materials of those activities, including but not limited to:</p> <ul style="list-style-type: none"> <li>(a) Submitted an annual outreach plan (due no later than July 1 of each year),</li> <li>(b) Information about disability access and WAV in general marketing campaigns,</li> <li>(c) Submit a quarterly report for each offset county on the following: Progress made towards implementing the outreach plan; The number of entities contacted; The method, nature, outcome of the contact; the number of partnerships developed; Efforts to publicize and promote WAV service in each offset county and whether efforts were accessible to people with disabilities and limited English proficiency; Educational materials developed and distributed; and outcome of TNCs efforts to outreach and engage wheelchair users.</li> </ul> <p>Quarterly Report shall also address the following questions:</p> <ul style="list-style-type: none"> <li>1. What methods of engagement did the TNC find most effective and why?</li> <li>2. What common concerns/questions came up during the engagement process?</li> </ul>	<b>Y</b>

<sup>12</sup> D.20-03-007 Ordering Paragraph 9, and D.23-02-024 Ordering Paragraph 16.

	3. What challenges have you encountered? How do you plan to overcome them?	
<b>4. Full accounting of funds expended<sup>13</sup></b>	Qualifying offset expenses are: (a) reasonable, legitimate costs that improve a TNC's WAV service, and (b) incurred in the quarter for which a TNC requests an offset, and (c) on the list of eligible expenses attached as Appendix A, and (d) net of fare revenues collected from WAV service delivery in the quarter for which a TNC requests an offset <sup>14</sup>	<b>Y</b>
<b>5. Training and inspections<sup>15</sup></b>	(a) certification of WAV driver training completion within the past 3 years, and (b) WAV driver training programs used per geographic area, and the number of WAV drivers that completed WAV training in that quarter, and (c) Certification of WAV inspection and approval	<b>Y</b>
<b>6. Reporting complaints<sup>16</sup></b>	Number of complaints related to WAV drivers or services – by quarter and geographic area, and broken out by category: Securement Issues; Driver Training; Vehicle Safety and Comfort; Service Animal; Stranded Passenger, Pickup, Drop Off, and Other issues.	<b>Y</b>

<sup>13</sup> D.20-03-007 Ordering Paragraph 10.

<sup>14</sup> D.21-11-004 Ordering Paragraph 9.

<sup>15</sup> D.20-03-007 Ordering Paragraph 13 and 15(f), 15(g), and 15(h).

<sup>16</sup> D.23-02-024 Ordering Paragraph 13.

**Table A: Level 1 and Level 2 Offset Time Standards (percent) and ORTB (minutes) by County**

County	Q1 2026					TNC claims the data demonstrates meeting or exceeding % of completed trips and within ORTB for Level 1 and 2?
	# Quarter Submission (1st, 2nd, 3rd, ...8th)	Level 1 (%)	Level 1 (mins) <sup>17</sup>	Level 2 (%)	Level 2 (mins)	
San Francisco	15	82.06	13.45	98.81	18.25	Yes
San Mateo	16	91.97	17.97	100.0	23.75	Yes

**Table B: Trip Completion Standard (part b.1)**

County	# Quarter Submission (1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup> , ...8 <sup>th</sup> )	County Group A, Group B, or Group C?	Trip Completion Rate (%)	TNC claims the data demonstrates meeting the minimum % of trip requests completed?
San Francisco	15	A	80.28	Yes
San Mateo	16	B	74.29	Yes

<sup>17</sup> Level 1 and Level 2 (mins) represent the applicable ORTB percentile for the appropriate quarter submission. Response time minutes for each decile is included in the file UBER\_2026Q1\_Response\_Times\_3.

**Table C: Trip Completion Standard (part b.2)**

<b>County</b>	<b>Option 1 or 2<sup>18</sup></b>	<b>(1) # of completed trips previous quarter</b>	<b>(2) # of completed trips in the immediately prior year's same quarter</b>	<b>(1) # of completed trips this quarter</b>	<b>(2) # of completed trip this quarter</b>
<b>San Francisco</b>	2	4853	3786	4793	4793
<b>San Mateo</b>	2	1368	942	1332	1332

**Table D: Pre-scheduled Pickup Delay Standards (PDS) (percent) and Pickup Delay Benchmarks (PDB) (minutes) by County**

<b>County</b>	<b>Q1 2026</b>			<b>TNC claims the data demonstrates meeting or exceeding % of completed trips and within PDB?</b>
	<b># Quarter Submission (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, ...8<sup>th</sup>)</b>	<b>PDS (%)</b>	<b>PDB (mins)</b>	
<b>San Francisco</b>	N/A	N/A	N/A	N/A
<b>San Mateo</b>	N/A	N/A	N/A	N/A

**Table E: Pre-scheduled Trip Completion Standard (part b.1)**

<b>County</b>	<b># Quarter Submission (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, ...8<sup>th</sup>)</b>	<b>County Group A, Group B, or Group C?</b>	<b>Pre-scheduled Trip Completion Standard (%)</b>	<b>TNC claims the data demonstrates meeting the minimum % of trip requests completed?</b>
<b>San Francisco</b>	N/A	N/A	N/A	N/A
<b>San Mateo</b>	N/A	N/A	N/A	N/A

<sup>18</sup> See D.21-11-004 Ordering Paragraph 6.

**Table F: Pre-scheduled Trip Completion Standard (part b.2)**

<b>County</b>	<b>Option 1 or 2<sup>19</sup></b>	<b>(1) # of completed trips previous quarter</b>	<b>(2) # of completed trips in the immediately prior year's same quarter</b>	<b>(1) # of completed trips this quarter</b>	<b>(2) # of completed trip this quarter</b>
<b>San Francisco</b>	N/A	N/A	N/A	N/A	N/A
<b>San Mateo</b>	N/A	N/A	N/A	N/A	N/A

Per D.23-02-24<sup>20</sup>, Uber submits information on the on-demand and Pre-scheduled Service Mix as indicated in the table below.

**Table G: On-demand and Pre-scheduled Service Mix**

<b>County</b>	<b># of On-Demand WAV Trips</b>	<b># of Pre-sched uled WAV Trips</b>	<b>% of On-Demand WAV trips out of the total Pre-scheduled WAV trips</b>	<b>% of Pre-sched uled WAV trips out of the total on-deman d WAV trips</b>
<b>San Francisco</b>	4793	0	100	0
<b>San Mateo</b>	1332	0	100	0

<sup>19</sup> See D.23-02-024 Ordering Paragraph 5.

<sup>20</sup> See D.23-02-024 Ordering Paragraph 6.

Per D.23-02-24<sup>21</sup>, Uber submits information on Wait and Save data as indicated in the table below.

***Table H: Wait and Save***

County	# of WAV Wait & Save Trips	# of On-Demand WAV Trips	% of Wait & Save Trips out of the total on-demand WAV trips
San Francisco	0	4793	0
San Mateo	0	1332	0

## **WAV Operating Hours**

Where UberWAV is available, prospective passengers can request a WAV ride through Uber’s app 24 hours a day, 7 days a week.

## **II. Background**

In 2018, Senate Bill 1376, the “TNC Access for All Act,” was enacted by the California Legislature.<sup>22</sup> Public Utilities (“Pub. Util.”) Code § 5440.5 establishes a framework whereby Transportation Network Companies (“TNCs”) are permitted to offset against quarterly Access Fund fee payments for amounts spent by the TNC during the quarter to improve WAV service.<sup>23</sup>

Uber recognizes its unique position as a TNC to enable increased access to third-party WAVs available for request via its online-enabled application, and appreciates the opportunity to submit this offset request advice letter.

## **III. Accessibility at Uber**

As the first TNC in California to address WAV challenges on a widespread basis, Uber understands the hurdles associated with enabling increased access to WAVs on its platform. Uber’s technology is helping to increase mobility and independence for riders with disabilities, with features and capabilities like:

---

<sup>21</sup> See D.23-02-024 Ordering Paragraph 11.

<sup>22</sup> S.B. 1376; *see also* Pub. Util. Code § 5440.5.

<sup>23</sup> Pub. Util. Code § 5440.5(a)(1)(B)(ii).

Cashless payments: Uber's cashless payment option simplifies the payment process, reducing the need for riders to worry about counting out cash or exchanging bills with a driver.

On-demand transportation: The Uber app makes it easier for riders with disabilities to get from A to B at the touch of a button. They no longer have to arrange rides through a dispatcher or resort to other, less convenient, means of finding a ride.

Agreements and policies: Driver agreements, Uber's Community Guidelines, Uber's Service Animal Policy, and Uber's Non-Discrimination Policy confirm that drivers must comply with all applicable laws, including, for example, those relating to their transportation of riders' service animals.

Riders who are blind or low-vision: With iOS VoiceOver, Android TalkBack, and wireless Braille display compatibility, the Uber app makes it easier for riders who are blind or low-vision to get where they need to go.

Riders who are deaf or hard of hearing: Audio is not needed for full functionality of the Uber app. Assistive technology such as visible and vibrating alerts can help riders who are deaf or hard of hearing use the Uber app easily, and in-app features, such as the ability to enter a destination, can facilitate non-verbal communication between the rider and driver.

Share your ETA and location: Riders can easily share their ride details, including the specific route and estimated time of arrival, with loved ones for extra peace of mind. Friends or family members will receive a link where they can see the driver's name, photo, and vehicle information, and track where the rider is on the map in real time until they arrive at their destination—all without downloading the Uber app.

When evaluating a TNC's efforts to increase access to third-party WAVs, Uber requests that the following be taken into consideration: compared to standard vehicles, WAVs have higher purchase prices; higher operating and maintenance costs; higher fuel costs; and higher insurance costs. Additionally, demand for WAV trips is extremely low, representing a very small fraction (less than 1%) of overall TNC demand.

Historically, Uber relied on drivers using their own WAVs to provide WAV services on the Uber platform. However, after observing the trends with individual-WAV ownership, Uber determined there were not enough individual WAV owners willing to make their WAVs available via the Uber app to service the public's demand, especially when geographic and temporal factors were taken into account.

Uber has invested significant capital to increase access to WAV service by partnering with third-party WAV providers. For example, in Quarter 1 of 2026, Uber spent over **\$3.1M** on payments to third-party partners with WAVs.

Uber's ability to continue to invest heavily to expand WAV service is dependent on the expectation that it will recoup some of its costs through the Access for All program, especially upon a showing of very high reliability and performance. If the Access for All program's offset rules preclude Uber from qualifying for fee offsets, Uber will not be able to invest at the same levels.

#### **IV. Uber's Offset Request Advice Letter**

In accordance with D.20-03-007, D.21-03-005, D.21-11-004, and D.23-02-024, and the templates provided by the Commission, Uber provides the following supporting information: this Advice Letter "38150 Uber Technologies, Inc. AL 40 Forms," including Attachment A (Training and Inspections Declarations) and Attachment B (Outreach Quarterly Report); and the .csv files referenced below.

##### **1. WAVs in Operation**

Data for the WAVs in operation in Quarter 1 of 2026 is provided in the report "UBER\_2026Q1\_WAVS\_In\_Operation\_1a." Per the template provided by the Commission, the data is aggregated by hour of the day and day of the week for each county.

##### **2. Unique WAVs in Operation**

Data for unique WAVs in operation in Quarter 1 of 2026 for every county in which Uber requests (or previously requested) an offset is provided in the report "UBER\_2026Q1\_Unique\_WAVS\_In\_Operation\_1b." Per the template provided by the Commission, the data is aggregated by hour of the day and day of the week for each county.

##### **3. WAV Trips**

Data detailing WAV trips in Quarter 1 of 2026 for every county in which Uber requests (or previously requested) an offset is provided in the report "UBER\_2026Q1\_WAV\_Trips\_2." This report includes data on the percentage, number, and Census Tract<sup>24</sup> of WAV trips completed, not accepted, canceled-no show,<sup>25</sup> canceled by passenger, canceled by driver, and cancellations

---

<sup>24</sup> Due to default formatting settings on .csv readers, Census Tract information may appear as a 10-digit code instead of an 11-digit code, omitting the 0 in California's 06 state code.

<sup>25</sup> Uber cannot provide information regarding the number of WAV trips canceled due to passenger "no-shows" because there is insufficient reliable data to report. Attempting to collect data reflecting

within completed trips, cancellations within not completed trips, and unique trips, aggregated by the hour of the day and day of the week.<sup>26</sup>

When analyzing trip data, it is critical to acknowledge that riders often submit multiple trip requests prior to taking a WAV trip. This may occur because an initial trip request is not matched with a driver, the rider cancels or modifies an initial trip request, or the rider requests multiple times, hoping to find a closer vehicle. A subsequent completed non-WAV trip might also indicate that the prior WAV request was possibly made in error.

#### **4. Response Times and the Offset Time Standard (OTS)**

Data for response times for completed WAV Trips, including Periods A and B, is provided in the report “UBER\_2026Q1\_Response\_Times\_3.” Data demonstrating that Uber has fulfilled the relevant Offset Time Standard percentages for Level 1 and Level 2 is provided in the report “UBER\_2026Q1\_OTS\_PDS\_4.”

Uber urges the Commission to take into consideration numerous factors when evaluating response times. First, coverage can vary across counties and providers, making comparisons difficult, if not impossible. For example, some providers may only offer service during certain time windows or in certain areas. These providers cannot be compared to a provider that offers service in a given county 24 hours a day, 7 days a week. Second, the fact that WAVs are servicing trips in a reasonable time compared to alternative accessible options should weigh considerably in the evaluation. Third, response times can be highly variable due to external factors such as seasonality, local or widespread emergencies, overall traffic patterns (e.g., rush hour), and business events such as onboarding of new third-party WAV service providers and implementation of new outreach and service efforts resulting in increased demand for WAV trips.

---

whether or not the reason for a cancellation is tied to a passenger not showing up would be susceptible to bias and other design issues, which would result in incomplete and inaccurate data collection. For those same reasons, a portion of driver cancellations may be due to rider “no-shows,” yet Uber cannot reasonably ascertain which portion of driver initiated cancellations this would account for. While Uber does not have reliable data to report for this category, for ease of the Commission’s analysis of Uber’s data files, Uber has entered “0” for this data rather than indicating “N/A.”

<sup>26</sup> Per CPUC’s instructions received via email on September 25th, 2020 in the file attachment labeled “Data Template Changes 092520.pdf”, Uber has calculated “Cancellations - Completed” and “Cancellations - Not Completed” as the total number of times that a trip request was accepted and canceled by a driver and redispached among trip requests that were ultimately completed and not completed, respectively. *E.g.*, per CPUC’s example, if trip request A was accepted, canceled and redispached a total of 5 times before being completed, then Uber would add 5 to the total count reported in the “Cancellations\_Completed\_Trips” row of the data file. Similar to previous instructions regarding counting trips, Uber has reported cancellations for the day and hour of the ultimate trip event.

In accordance with Pub. Util. Code § 5440.5, offset requests should be evaluated in light of “reasonable response times.” When analyzing the information presented for a certain county, the data should be considered holistically, as each piece of data is part of an overall picture of the county and California-wide service.

## **5. Trip Completion Standard (TCS)**

Data demonstrating that Uber has fulfilled the Trip Completion Standard is provided in the report “UBER\_2026Q1\_TCS\_PTC5.”

Similar to response times, because coverage can vary across counties and providers, comparisons for metrics such as trip completion rate can be difficult, if not impossible. For example, some providers may only offer service during certain time windows or in certain areas. These providers cannot be compared to a provider that offers service in a given county 24 hours a day, 7 days a week. Further, completion rates can be highly variable due to the same external factors which can impact response times.

## **6. Outreach**

Between January and March 2026 (Quarter 1 of 2026), Uber implemented its 2025-2026 Annual Outreach Plan. Details of Uber’s efforts including 1) a narrative of its efforts, 2) a tracker documenting its quarterly efforts pursuant to its plan, 3) answers to questions set forth in D.23-02-024<sup>27</sup>, and 4) exemplar marketing materials are included as Attachment B.

Additional data detailing Uber’s outreach efforts is provided in the report “UBER\_2026Q1\_Outreach\_7.” In this report, there may be date ranges in the columns labeled “Date” that are associated with email and phone outreach. These ranges reflect the range of start dates of outreach for specific partners in that county for email and phone outreach.

## **7. WAV Training and Inspections**

Information regarding WAV Driver Training is provided in the report “UBER\_2026Q1\_Training\_and\_Inspections\_8” and required certifications are provided within Attachment A. The number of WAV drivers that have completed training is assigned according to the physical location of the fleet partner’s office, as that is where the training takes place.

## **8. Complaints**

---

<sup>27</sup> See D.23-02-024 Ordering Paragraph 16.

Information regarding complaints related to WAV services for each geographic area is provided in the report “UBER\_2026Q1\_Complaints\_9.” In an effort to be comprehensive, some complaint information included may represent a situation unrelated to the actual quality of WAV service provided, such as inquiries regarding lost items and account or payment questions.

## **9. Accounting of Funds Expended**

An accounting of certain funds expended in Quarter 1 of 2026 is included in the report “UBER\_2026Q1\_Funds\_Expended\_10.”

As indicated in the supporting documentation provided, Uber is investing a significant amount of money to enable increased access to WAVs. It is more expensive to maintain and incentivize WAV trips over UberX trips, and Uber must offer substantial incentives to our partners to make it financially viable for them to operate their WAVs on the Uber platform, given the substantially higher acquisition, operating, and maintenance costs incurred. Further, the amounts included herein are not exhaustive and represent only a subset of the capital expended to enable the WAV program. Simply put, the millions of dollars Uber has demonstrated it invests is intended to achieve an end goal of enabling access to accessible, on-demand transportation to the general population at a price, service level, and scale that simply is not commercially available anywhere else in the market today.

## **10. Contract Information**

Information regarding contracts with service providers is included in the report “UBER\_2026Q1\_Contract\_Information\_11.” The “Duration” column identifies the total length of the contract that was in effect during the reporting quarter. The entry “All CA Counties” under the column “County” indicates that the provider associated with that entry is eligible to provide trips starting in all California counties.

In compliance with General Order 96-B, we served a copy of this advice letter via email upon the parties identified on the attached R.19-02-012 service list on April 15, 2026. If there are any questions regarding this advice letter, please contact Ashley Fillmore at [westregs@uber.com](mailto:westregs@uber.com).

Any Party can protest or respond to this advice letter by sending a written protest or response via email to CPED at [TNCAccess@cpuc.ca.gov](mailto:TNCAccess@cpuc.ca.gov). If submitting a protest, the protest must set forth the specific grounds on which it is based, including supporting information or legal arguments. A protest or response to the advice letter must be submitted to CPED within twenty (20) days of the date the advice letter was filed and must be served on the TNC on the same day.

Email a copy of the protest or response to this advice letter to Ashley Fillmore at [westregs@uber.com](mailto:westregs@uber.com).

To obtain information about the CPUC's procedures for advice letters and protests, visit CPUC's website at [www.cpuc.ca.gov](http://www.cpuc.ca.gov) and look for links to General Order 96-B.

**I HEREBY CERTIFY UNDER THE PENALTY OF PERJURY UNDER THE LAWS OF THE STATE OF CALIFORNIA THAT THE FOLLOWING ATTACHMENTS HAVE BEEN EXAMINED BY ME AND ARE TRUE, CORRECT AND COMPLETE TO THE BEST OF MY KNOWLEDGE AND BELIEF.**

Respectfully submitted,

/s/ Ashley Fillmore  
Ashley Fillmore  
Senior Counsel, Regulatory  
Uber Technologies, Inc.

### **Uber Technologies, Inc.'s Outreach Quarterly Report Quarter 1 2026**

April 15, 2026

---

In the first quarter of 2026, Uber Technologies, Inc. continued to advance its UberWAV (Wheelchair Accessible Vehicles) program in alignment with the 2025–2026 outreach strategy and in compliance with the California Public Utilities Commission's TNC Access for All Act (SB 1376). During this quarter, Uber delivered one presentation and convened an in-person focus group with 30 participants. Building on prior outreach showing that focus groups are most effective when held in person, Uber supported attendance by providing free roundtrip transportation for participants through UberWAV and other ride options available in the app.

Overall, the team engaged 66 organizations, including follow-up outreach to 40 previously contacted groups and initial engagement with 26 new organizations.

#### **First Quarter 2026 Outreach Questions Checklist:**

##### **1. What methods of engagement did the TNC find most effective and why?**

Removing cost and distance as barriers to attendance was the most effective engagement approach this quarter, as it expanded participation and brought together stakeholders from across multiple WAV service regions, allowing the discussion to reflect differences in rider experience and access needs.

##### **2. What common concerns/questions came up during the engagement process?**

Below are some of the common questions and concerns raised during Q1 outreach engagements regarding the UberWAV program:

- Could veteran discounts for UberWAV and other accessible services be expanded more broadly across the country?
- What is the current availability of WAV vehicles across California?
- Does UberWAV permit service animals?
- Will Uber expand WAV access in areas with more limited service?

##### **3. What challenges have you encountered? How do you plan to overcome them?**

Building relationships with organizations outside traditional accessibility networks has presented challenges this quarter, particularly where community needs differ from those of accessibility groups with more specialized service offerings. Addressing those differences requires more tailored outreach and closer collaboration to identify how UberWAV can best support existing

services and programs. Uber plans to strengthen this work through partnerships and sponsorship opportunities aligned with the programming these organizations already provide.

Key outreach activities in the first quarter of 2026 included:

- **Stakeholder Engagement:** This quarter, outreach included accessibility service providers, veteran support organizations, and student disability services and programs. A presentation was delivered to Diablo Valley College Disability Support Services (DSS) and an in-person focus group session was conducted for Open Doors to Future Possibilities.
- **Outreach Efforts:** Outreach efforts reached 64 organizations this quarter, including 40 previously engaged organizations and 26 new organizations.
- **Follow-Up Strategy:** This quarter, follow-up efforts continue to prioritize timely and structured email communication, with phone outreach used to clarify preliminary questions.
- **Post-Engagement Initiatives:** Distributed multilingual flyers and Q&A summaries following presentations and meetings. Additionally, identified potential partnership opportunities and new organizations for future engagement.

### Speaking Engagements

Organization Name	Key Themes	Engagement Type
Diablo Valley College DSS	<ul style="list-style-type: none"> <li>● Availability of WAV service when needed</li> <li>● Coverage across campus and nearby areas</li> <li>● Wait times for WAV trips</li> <li>● Affordability for students</li> <li>● Awareness of UberWAV and how to access it</li> <li>● Reliability of service for recurring transportation needs</li> </ul>	Presentation
Open Doors to Future Possibilities	<ul style="list-style-type: none"> <li>● Veteran discounts and implementation across more California UberWAV service areas</li> <li>● Availability of WAV service when needed</li> <li>● Affordability of accessible transportation</li> <li>● Service animal access and ride refusals</li> </ul>	Focus Group

	<ul style="list-style-type: none"> <li>● Interest in how accessible services may evolve over time</li> </ul>	
--	--	--

## **Program Information and Community Group Outreach**

The outreach team has established a network of over 350 stakeholders across California who receive regular program updates, provide feedback, and help spread the word about UberWAV. During presentation opportunities, Uber utilizes its UberWAV presentation deck to engage with stakeholder groups and educate them about the program. The deck provides an introductory overview of UberWAV, highlighting its features and benefits. It also includes detailed instructions on how to use UberWAV, with step-by-step guidance on booking a ride and what to expect during the ride. The presentation emphasizes the intent of State Bill 1376, which requires transportation network companies to adopt wheelchair-accessible vehicles on their platforms, highlighting the significance of the UberWAV program and Uber's commitment to improving accessibility and inclusivity for riders with disabilities. (See Section A).

To identify outreach opportunities that effectively reach disabled consumers, Uber has actively sought input from these stakeholders. To support these efforts, Uber has provided a California-specific instructional fact sheet on accessing UberWAV to stakeholder organizations and has prepared English, Spanish, and Mandarin versions of the sheet for distribution. (See Section B.)

In addition to these resources, Uber has created a dedicated webpage for UberWAV and an accessibility webpage that provides regular updates on new products, features, and initiatives aimed at improving the mobility and independence of riders with disabilities. These digital resources are available in four languages and include Frequently Asked Questions, tools for consumers, and a step-by-step explanation of how to use the service. The user-friendly design provides a comprehensive guide to using UberWAV, highlighting Uber's commitment to improving accessibility for all riders. (See Section C.) Additionally, Uber has undertaken marketing efforts to expand awareness of UberWAV offerings, such as by including UberWAV in our general mass marketing email campaigns. (See Section D.)

Finally, to help summarize Uber's various efforts throughout the quarter, Uber is attaching a chart showing its progress towards its quarterly goals established in its outreach plan. (See Section E.)

## Section A: Ride with UberWAV Community Presentation

# Agenda

**01** Accessibility

**02** Features

**03** WAV, Seniors, Health, Service Animals

**05** Q&A

## What does accessibility mean?

**1 in 6** Uber users

experiences a disability. Each deserves a platform experience grounded in independence, safety, reliability, and dignity.

Uber is building the world's most accessible mobility and delivery platform with innovations driven by users and expert partners.

Uber |

## Building together

We work continuously with disability and aging experts to:

- Design user-centered tools and experiences
- Increase awareness in our communities to ensure people can make the most of our platform
- Identify opportunities to improve affordability for people struggling to afford transport, groceries, and medicine

## Accessibility Features + Options

For riders who are blind or low vision

For riders who are deaf or hard-of-hearing

For riders using folding wheelchairs, motorized wheelchairs & scooters

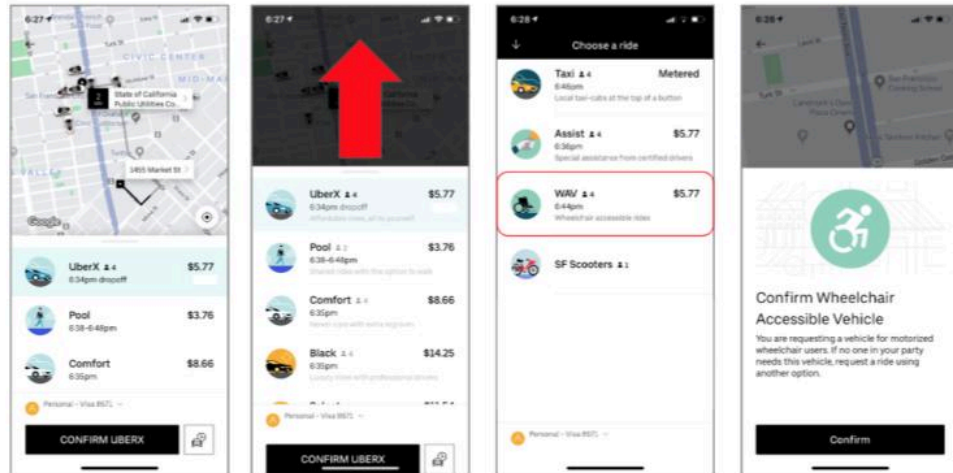

5

## What is WAV?

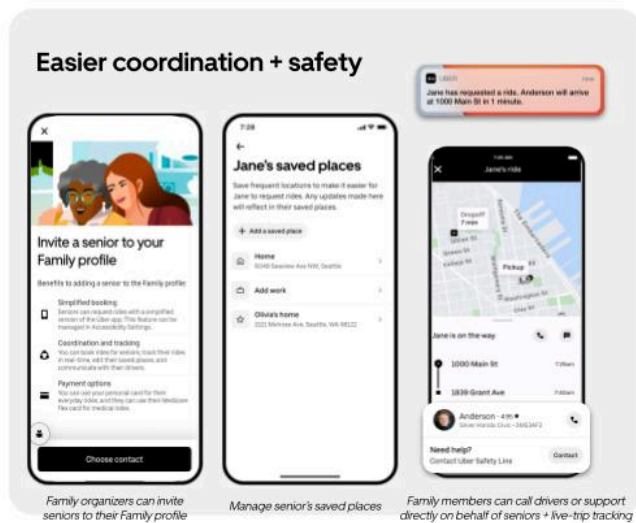

UberWAV provides affordable rides in wheelchair-accessible vehicles (WAV). In certain cities, riders who use motorized wheelchairs or scooters can request a ride in a WAV. WAV driver-partners are certified by a third party in safely driving and assisting people with disabilities.

# How to ride with WAV

## Older adults can improve safety, health, and socialization with Senior Accounts

Users can invite loved ones to join their Family profile with a Senior account. Once the older adult accepts the invite, the family organizer can:

- Book rides on their behalf
- Enable the senior to book a ride on the family organizer's payment method
- Help manage their Saved places
- Have access to safety features when the senior is taking a ride on their payment profile, such as:
  - a. Live-trip tracking
  - b. 3-way communication with the driver
  - c. Be alerted via RideCheck, which proactively detects if a trip is disrupted
  - d. Access live help with a safety agent at ADT

## Uber Health drives more timely healthcare appointments, improving health and reducing costs

We believe a safe, reliable ride should never be a barrier between you and your health.

Uber Health provides a platform for care coordinators to securely order rides and deliveries for members.

**4,000+**  
organizations

Uber Health

**60M+**

## Affordability & Access for Low-income Communities

40% of people with low-income say rideshare is a necessity. We know that making every dollar count is essential to ensuring our communities can thrive.

People can use their benefits cards in their Uber wallet to pay for the rides, grocery, and pharmacy deliveries that support their well-being.

 US only

## Improving experiences for users with Service Animals

We're working to ensure reliable mobility with user-driven solutions in the Service Animal community.

We've worked with local and global experts for years to improve the trip experience for people traveling with Service Animals.

Our expert-driven solutions have included:

- Increased driver awareness
- Improved customer support experience
- Tools for users to identify as a rider traveling with a Service Animal

# Accessibility at Uber

Our technology has transformed mobility for many people with disabilities, and we're committed to continuing to develop solutions that support everyone's ability to easily move around their communities.\*

## Section D: UberWAV Public Information Materials - Emails

## Section E: UberWAV Progress Toward Quarterly Goals

2025–26 WAV Plan Requirement ID	Objective / Quarter	Q1 2026
1.1	Conduct initial email outreach to at least 60 stakeholder groups per quarter	Email Outreach: 66 SGs contacted Presentation Outreach: Engaged with 2 SGs (including one focus group)
1.2	Conduct at least 1 tailored follow-up meeting with responsive stakeholder groups per quarter (4 per year), highlighting UberWAV's features and addressing any specific questions from stakeholders or organizations.	✓
1.3	Collect continuous feedback from stakeholder groups and riders in digital and virtual forms of engagement (via in-app support for riders, Uber's custom feedback form, email input).	✓
2.1	Collaborate with local organizations on at least 1 joint outreach initiative per quarter (4 per year).	✓
2.2	Conduct at least 1 focus group or listening session per quarter (4 per year) with representatives from non-traditional disability communities.	✓
2.3	Engage at least 1 consultant specializing in stakeholder outreach and participation annually to optimize Uber's interaction strategies.	✓
3.1	Provide multilingual materials in five primary languages (English, Spanish, Mandarin-Chinese, Hindi, and Vietnamese) to disability advocacy groups in multi-ethnic communities where English is not the predominant language.	Yes: Uber has prepared materials in English, Spanish, Mandarin Chinese, Hindi and Vietnamese for distribution.
3.2	Launch at least one mass email campaign per month highlighting UberWAV (with aim to reach at least 40,000 riders per quarter)	53,013 rider emails sent this quarter
3.3	Publish at least two pieces of social media content per year promoting UberWAV (with aim to reach at least 100,000 impressions per post)	29,911 impressions through LinkedIn post
3.4	Partner/Collaborate with a wheelchair user or social media influencer once per year to raise awareness of UberWAV	✓
4	Monitoring and Evaluation	✓
Deliverable	1. What methods of engagement did the TNC find most effective and why? 2. What common concerns/questions came up during the engagement process? 3. What challenges have you encountered? How do you plan to overcome them?	Removing cost and distance barriers was the most effective engagement approach this quarter, as it made participation easier across multiple service areas and brought in a broader range of rider perspectives. Common questions focused on veteran discount expansion, WAV availability across California, service animal policies, and whether UberWAV service will expand in areas with limited access.  A key challenge was building relationships outside traditional accessibility networks, particularly where community needs differed
