D.15-12-031	TracFone Wireless, Inc.	\$ 10,000,000	\$ -	\$ 10,000,000	This decision approves the settlement agreement between the California Public Utilities Commission Safety and Enforcement Division and TracFone Wireless, Inc. The settlement agreement resolves all outstanding issues in this Investigation and related court action concerning TracFone's collection of public purpose program surcharges and user fees on intrastate revenue since 2000 and provides that TracFone shall pay a \$10 million penalty.
D.15-09-009	Comcast	\$ 12,500,000	\$ 7,909,400	\$ 32,909,400	This decision approves a Settlement Agreement between Comcast Phone of California, LLC (U-5698-C) (Comcast Phone) and the Safety and Enforcement Division. This proceeding was instituted to investigate issues relating to the unauthorized disclosure and publication of directory listing information (i.e., name, telephone number, and address) by Comcast Phone and its related entities. Approximately 75,000 Comcast customers in California had a non-published or non-listed feature on their XFINITY Voice service. As a result of Comcast's unauthorized disclosure and publication, the names, telephone numbers, and addresses of these customers became available on Comcast's online directory, in a rural telephone company's phone books, and via directory assistance. Thus Comcast was required (a) to pay a \$25 million penalty (half to the State of California General Fund, and half to the California Attorney General), (b) to provide further restitution to affected customers, as set forth in the Settlement, and (c) to undertake specified operational reforms to enhance the security of Comcast customers' directory listing information (and the privacy of those customers seeking non-published status).

Among other things the Settlement Agreement requires Five9 to pay a penalty of \$10,000 to the General Fund, to pay retroactive surcharges and fees plus interest and comply fully with all applicable regulatory and legal requirements. Pursuant to Public Utilities Code Section 1001, we grant Five9, a Certificate of Public Convenience and Necessity to provide resold interexchange service in California subject to the terms and conditions set forth in the Ordering Paragraphs.

Logical also acknowledged that some of its prepaid phone cards and advertising materials did not meet the requirements of California's Business and Professional Code Section 17538.9. Logical and SED have agreed on a settlement in which Logical will pay \$120,000 to the State of California General Fund. The Settlement Agreement was subsequently approved by the Commission in D.15-01-032.
D.15-06-003	Dial World Communications	\$ 65,000	\$ -	\$ 65,000	Pursuant to Pub. Util. Code § 1001, we grant the application of Dial World Communications, LLC (Dial World) a certificate of public convenience and necessity (CPCN) for authority to provide resold interexchange service in California subject to the terms and conditions set forth in this order. As a basis for granting the CPCN, and we are requiring Dial World to pay retroactive surcharges and fees totaling \$65,000.
D.15-12-009	Dynalink Communications, Inc	\$ 12,652	\$ -	\$ 12,652	This decision approved and adopted the December 3, 2014 settlement agreement between Dynalink Communications Inc. and the Safety and Enforcement Division. The settlement resolved the issues raised in the April 18, 2014 protest filed by SED concerning Dynalink's: 1) operation in California after November 2009 when Dynalink's certification to provide telecommunication's services was revoked pursuant to Resolution T-17228 for failure to comply with the Commission's reimbursement account fee filing and reporting requirements; 2) failure to disclose prior adverse regulatory actions in other jurisdictions, and 3) erroneous statements of fact in its Application, in violation of Rule 1.1.

Util. Code § 5860, and failing to notify the Federal Communications Commission of its acquisition of video franchises in violation of 47 CFR 76.1610. This Decision imposes a penalty of \$10,000 against New Day pursuant to Pub. Util. Code §§ 2108 and 2111 for these violations.

The RA Citation Program creates a specified violation for a deficiency cured within five business days from the date of notification by Energy Division with a prescribed penalty of \$5,000 per incident if the deficiency is 10 Megawatts (MW) or smaller, or \$10,000 for a deficiency larger than 10 MW. California Independent System Operator (CAISO)'s T-45 supply plans have confirmed Commerce for 4.00 MW of system RA. Glacial has a 0.34 MW Demand Response (DR) allocation. This is 0.66 MW (5.00 minus 4.00 minus 0.34) short of their RA obligation. The deficiency notice is to procure the 0.66 MW of system capacity and file with the CPUC by April 13, 2015.
E-4195-0026	3 Phases Renewables	\$ 10,000	\$ -	\$ 10,000	On May 5, 2015, Energy Division emailed 3 Phases a correction notice. 3 Phases was deficient with their June 2015 month-ahead RA obligation. 3 Phases had a system RA requirement of 53.00 MW. D.06-10-027	Qwest	\$ 150,000	\$ 30,000	\$ 180,000	In this decision, the Commission approved the settlement agreement between Qwest and CPSD concerning compliance with statutes, decisions, and other requirements applicable to the utility's installation of facilities in California for providing telecommunications service. Under the settlement agreement, Qwest agreed to pay \$150,000 to the State's General Fund and to contribute \$30,000 to three groups that promote awareness of Native American sites, archaeology and history within California.
D.06-04-035	MCI	\$ 1,300,000	\$ 2,000,000	\$ 3,300,000	Commission approved the settlement agreement between MCI, WorldCom, and MCI WorldCom (collectively, MCI) and CPSD that resolved the Commission's investigation into MCI's alleged slamming and cramming activities. MCI agreed to pay \$2.3 million, in addition to credits already paid to affected customers. (MCI estimates its past credits to be in excess of \$1 million.) \$2.3 million was comprised of \$1 million in refunds or credits to affected customers and \$1.3 million as penalties payable to CA General Fund.

05-02-001	Miko Communications	\$ 45,350	\$ -	\$ 45,350	This decision finds that Miko and its sole owner and President Margaret Currie conducted operations in California without operating authority, failed to pay the Commission's telecommunications fees and surcharges, made a material misrepresentation in response to a data request from the Commission's Telecommunications Division, and engaged in a pattern of slamming, i.e., violated regulations governing how telephone subscribers are switched from one interexchange carrier to another. The Commission permanently revoked respondents' operating authority, and fined respondents \$45,035
05-03-004	Vycera Communications	\$ 100,000	\$ -	\$ 100,000	In this decision, the Commission approved a settlement between CPSD and Vycera and its officers and primary shareholders resolving an investigation into allegations that Vycera made unauthorized transfers of telephone service and billed for unordered services. The settlement agreement provides for numerous changes to Vycera's operations, enhanced CPSD oversight, and a \$100,000 fine.
05-06-033	Clear World Communications	\$ 100,000	\$ -	\$ 100,000	The Commission found that two predecessor companies of Clear World operated as unauthorized resellers of long distance service in California between the years 1997 and 1999 and that the assets of one of these companies were transferred to Clear World without authorization. The Commission imposed a fine of \$100,000.

D.04-06-017	NOS Communications	\$ 2,900,000	\$ 50,000	\$ 2,950,000	The Commission adopted a settlement agreement between CPSD and NOS which requires NOS to make payments to the Commission totaling \$2,950,000. Of this sum, \$2,900,000 will be deposited into the State's General Fund, and \$50,000 will be set aside for customer restitution and claims administration. Each of about 1400 customers will receive a restitution payment of \$25.
D.04-09-007	Verizon	\$ 4,836,000	\$ -	\$ 4,836,000	Commission ordered CPSD to retain and supervise consultants to conduct review of Verizon's operations and practices related to Individual Case Basis (ICB) contracts and Verizon to reimburse the Commission for consultants' costs. Commission adopted a settlement between Verizon and CPSD under which Verizon will pay \$4,836,000 to the CA General Fund in satisfaction of any fines or other remedies that could have been sought or imposed for violation of the P.U. Code and of Commission rules relating to ICB and express contracts.
D.04-09-062 and D.07-03-048	Cingular Wireless	\$ 12,140,000	\$ 17,717,740	\$ 29,857,740	Cingular's corporate policy and practice in CA did not allow any "grace period" or trial of its wireless service and prohibited early termination of wireless service unless customer paid an early termination fee (ETF) of \$150. Given Cingular's own testimony that testing wireless service by using the phone is best way for a customer to ascertain whether service meets his or her needs, binding that customer in advance to a one or two-year contract constituted an unjust and unreasonable rule and resulted in inadequate, unjust, and unreasonable service in violation of PU Code Section 451 and Commission Decision (D.) 95-04-028. Commission imposed penalty of \$12,140,000 and ordered Cingular to reimburse customers who paid part or all of ETF.
