Agenda for DRMEC Workshop on IOU 2026 LIP Reports

Background: The purpose of this workshop is for the Investor-Owned Utilities (IOUs) to provide a briefing on their Demand Response (DR) program results as filed in the Load Impact Protocols (LIP) reports on April 1, 2026. At this workshop, the IOUs will highlight the performance of select DR programs in 2025 (ex post) and a performance forecast for 2026-2036 (ex ante).

The LIP is a comprehensive set of procedures for estimating the load impacts of DR resources. LIP evaluation plans and studies are conducted annually and filed on April 1 for review by the California Public Utilities Energy Division (CPUC ED) and the Demand Response Measurement and Evaluation Committee (DRMEC).

For procedural details relating to the LIP, the record development process, and the role of this workshop within the proceeding (R.13-09-011), please refer to D.08-04-050, "Decision Adopting Protocols for Estimating Demand Response Load Impacts," adopted on April 24, 2008.

The Utility contact person for this workshop is Jake J Hoffman at JAKE.1.HOFFMAN@SCE.COM. The CPUC ED contact person regarding this proceeding is Rebekah Daniel at Rebekah.Daniel@cpuc.ca.gov.
