Notes:

- (1) Per previous conversation with Michael Zelazo at the CPUC Energy Division, risk spending includes any FERC account which includes spending on safety, reliability and/or maintenance activities. The company has made a good faith effort to include only accounts which meet this description. The amounts shown are inclusive of these activities, but also include other operating activities.
- (2) Authorized costs were determined by starting with the costs included in the company's last CA GRC, A.09-11-015, for the FERC accounts identified in Note #1 above and increasing annually for the company's approved PTAM Attrition filings to determine the 2018 "authorized" in rates amounts.
