

**SOUTHERN CALIFORNIA EDISON COMPANY'S  
DISADVANTAGED COMMUNITIES GREEN TARIFF AND  
COMMUNITY SOLAR GREEN TARIFF  
THIRD QUARTER 2021 REPORT**

**Background**

Southern California Edison Company (“SCE”) hereby submits its Disadvantaged Communities Green Tariff (“DAC-GT”) and Community Solar Green Tariff (“CSGT”) quarterly report in accordance with Resolution E-4999 (“Resolution”).

Decision (“D.”) 18-06-027 (“Decision”) also specifies that utilities work with the Energy Division (“ED”) on reporting requirements and that the ED may modify such requirements as necessary.<sup>1</sup> As specific reporting requirements were not designated in the Decision, the Resolution provides standardized reporting requirements to participating investor-owned utilities (“IOUs”) that include a quarterly Disadvantaged Communities Green Tariff (“DAC-GT”) and Community Solar Green Tariff (“CSGT”) programs progress report with enrollment and subscription details by the program.<sup>2</sup> This filing is the quarterly report described in the Resolution. The reporting period for this quarterly report covers July 1, 2021, through September 30, 2021.

**Discussion**

SCE’s DAC-GT (also referred to as the “Green Saver Program”) has a program capacity allocation of 56.5 megawatts (“MW”). This program provides a 20 percent bill discount to California Alternate Rates for Energy Program (“CARE”) or Family Electric Rate Assistance Program (“FERA”) eligible customers located in DACs, defined as the top 25 percent most impacted census tracts statewide as well as an additional 22 census tracts in the highest five percent of CalEnviroScreen’s Pollution Burden that do not have an overall CalEnviroScreen score because of unreliable socioeconomic or health data. SCE’s CSGT (also referred to as “Local Green Saver Program”) has a program capacity allocation of 14.63 MW and provides a 20 percent electric bill discount to low-income and non-low-income customers who are located within an eligible census tract and a specified distance from the community solar project built under the program.

On February 27, 2020, SCE launched its first DAC-GT and CSGT solicitation, resulting in a successful offer of a 3 MW CSGT project with Visalia CSG, LLC, which SCE submitted for

---

<sup>1</sup> Decision at p. 55, section 6.4.6 - Reporting.

<sup>2</sup> Resolution at pp. 39-40, Reporting Requirements; id., OP 1.f. at 63. The Resolution provides that the quarterly reports are to be filed with the Commission.

THIRD QUARTER 2021 REPORT**

Commission Approval in Advice Letter 4297-E. The Commission accepted SCE's Advice Letter on October 23, 2020. SCE has launched three additional DAC-GT and CSGT solicitations to date, with the latest launch taking place on September 30, 2021.

In summary, to date, SCE has completed three DAC-GT and CSGT solicitations, procuring a total of 3 MW of capacity for the CSGT program and 0 MW for the DAC-GT program. Table 1 summarizes the total procured and online solar project capacity, customers subscribed count, and CARE/FERA enrollments for each program.

For this report, "Customers Subscribed" is defined as customers for which capacity has been assigned in either the DAC-GT or CSGT programs. Customers who are on the waitlist are not counted as being subscribed to a program. During this reporting period, there are also zero enrollments into the CARE/FERA program since there are no waitlist or enrolled customers in both programs.

**Table 1  
DAC-GT and CSGT Program Summary  
Third Quarter 2021**

	<b>CSGT Q3 2021</b>	<b>CSGT Cumulative</b>	<b>DAC-GT Q3 2021</b>	<b>DAC-GT Cumulative</b>
<b>Capacity Procured (MW)</b>	0	3	0	0
<b>Capacity Online (MW)</b>	0	0	0	0
<b>Customers Subscribed</b>	0	0	0	0
<b>CARE/FERA Enrollments</b>	0	0	0	0

Table 2 details the project that has been procured to date, and the project characteristics, including project name, what program the project was procured for, the project's DAC census tract number, and the project capacity. Currently, there is one (1) project for the CSGT program and zero (0) projects for the DAC-GT program. The CSGT project, Visalia CSG expected initial delivery date was moved from October 1, 2022 to May 1, 2023 to reflect additional time for interconnection.

THIRD QUARTER 2021 REPORT**

**Table 2  
DAC-GT and CSGT Individual Project Details  
Third Quarter 2021**

<b>Project Name</b>	<b>Program</b>	<b>Project Capacity (MW)</b>	<b>Project Location (Census Tract)</b>	<b>Project Location (City)</b>
Visalia CSG	CSGT	3	6107001602	Visalia

Table 3 displays the cumulative number of active customers participating in each program as of September 30, 2021. Note that the census tract numbers displayed do not cover the entire SCE territory at this time since we do not have an approved DAC-GT project. Instead, the table reflects only the census tracts eligible to participate in the Visalia CSG project site location for the CSGT program. As noted in the table, from October 26, 2020, to September 30, 2021, SCE did not have any enrollments for the CSGT project and the DAC-GT.

Regarding the CSGT program, SCE began accepting subscription and waitlist requests to the new site location on June 18, 2021. As of September 30, 2021, there are no subscriptions to either the CSGT program or the DAC-GT.
