

## Question 1:

What processes should the Commission adopt for both (a) initial filing, and (b) long-term oversight of CCA BioMAT procurement contracts, including biofuel reports and feedstock attestations?

# Guiding Principle

- Utilize established processes:
  - BioMAT, D.14-12-081, D.15-09-004, D.20-08-043
  - Disadvantaged Green Tariff (DAC-GT), D.18-06-027

# Initial Filing of Tariff/PPA

- CCAs file, within this rulemaking, proposed pro forma CCA Tariff/PPA based on existing IOU BioMAT Tariffs/PPAs
- Stakeholders have opportunity to comment within this rulemaking on proposed CCA Tariff/PPA
- Commission incorporates CCA Tariff/PPA in Proposed Decision in this rulemaking

# Long-term Commission Oversight

	<b>Current</b>	<b>Proposed</b>
Executed BioMAT Contracts	IOUs file with Energy Division through Tier 2 Advice Letter	Same process applicable to IOUs and CCAs
Yearly Biofuel Reports and Feedstock Attestations	IOUs file with Energy Division through Tier 2 Advice Letter (to be confirmed)	Same process applicable to IOUs and CCAs
