**Internal Program Activities**

---

Wild Goose Storage LLC's (WGS) Supplier Diversity program is administered jointly by the Senior Compliance Manager, Superintendent of U.S. Operations, and U.S. Operations personnel. The parent company for WGS continues to be Rockpoint Gas Storage, who in turn is owned by Brookfield Infrastructure. The WGS Ops group reports directly to the Senior Vice President (VP), Storage Operations for Rockpoint. During CY2025, WGS applied a disciplined approach to spending, with management and senior members making key purchasing decisions. The Ops group was made aware of the importance of G.O. #156 program and utilization of diverse suppliers/contractors. Both WGS and Lodi Gas Storage (LGS) are under the same Brookfield ownership umbrella. A concentrated effort was made on both WGS/LGS' behalf to communicate and incorporate diverse suppliers/contractors within their spend requirements. The facility continues to be fully committed to the development and adherence of G.O. #156 Supplier Diversity Program goals. The Senior Compliance Manager has reviewed the Clearinghouse information in regards to diverse business spend.

Description of Progress in Meeting or Exceeding Set Goals		

Wild Goose Storage had a slightly lower percent spent on diverse businesses in comparison to last year (8.29% in CY2025 vs. 11.45% in CY2024), and the overall dollar amount spent on diverse businesses was slightly lower (\$718,123 in CY2025 vs. \$2,262,038 in CY2024). Wild Goose Storage expects higher capital expenditures until the end of calendar year 2026, due to well work that's required to be completed to meet State regulatory requirements. Efforts continued in utilizing diverse companies with day to day operations, and we believe this initiative was successful.

Wild Goose Storage is expecting equivalent diverse business spend in CY2026, in comparison to the CY2025 actual spend values. Overall we're anticipating to achieve an 11.00% target in CY2026.

Description of Supplier Diversity Activities and Progress in Fuel Procurement		

Wild Goose Storage utilizes natural gas as their fuel to run various pieces of equipment. This natural gas is removed / metered from the main sales stream that either comes from or goes onto PG&E's transmission system. This fuel usage is charged back to customers who utilize Wild Goose Storage for gas storage. Thus, fuel procurement is not applicable to the Supplier Diversity Program.

Wild Goose Storage, LLC	Report Year: 2025	GO 156 Section 10.1.2
Description of Supplier Diversity Program Activities Planned for the Next Calendar Year		

**Internal program activities**

---

Wild Goose operates one gas storage facility in Northern California; with the main part of the process located in Butte County. Continued efforts were made to reduce operating costs as a way to offset low commodity pricing, and resulting revenue. The downturn in the petroleum industry, as a result of lower commodity pricing, has caused businesses in the area to close shop and move elsewhere. Purchasing options have become even more limited than in the past.

Due to the limited number of purchases that are made by Wild Goose, the employment of a full time procurement specialist is not justified. The Senior Compliance Manager, Superintendent, U.S. Operations, and operations staff will continue to work diligently in seeking new diverse companies that can support Wild Goose's needs. Wild Goose will continue to network with the Lodi Gas Storage operation on new/potential diverse business enterprises.

In the area of capacity building, Wild Goose, as a small utility has only so much leverage to be able to affect change in this area. The specialized nature of some of the equipment as well as the processes unique to gas storage make it difficult in some instances to be able to spread out the supplier base. When undertaking large development/capital projects at Wild Goose, it typically necessitates the use of high capacity equipment, and unique technical skills/contractor labor. Goods and services that aren't readily available from diverse companies. The proprietary nature of our business definitely limits our ability to be more aggressive in this area. That being said, Wild Goose continues to investigate diverse companies in the area to see if they'd be a possible fit for future use.

Wild Goose runs the Supplier Diversity Program jointly between the Calgary Head Office and the facility. The ability for Wild Goose to expand its mandate in this area requires both local and Head Office support. As discussed earlier, Rockpoint Gas Storage management have been given an overview of the G.O. #156 program, and the associated importance. We continue to focus our efforts upon doing what we can to expand the supplier base in the Wild Goose area as well as increasing business ties with the small and relatively non-diverse business community. We are aware that this is a worthy goal and will continue to strive in making progress in this area with the resources that we have at our disposal.

**External program activities**

---

Wild Goose Storage will make an effort to continue to support programs related to Supplier Diversity.

Wild Goose Storage, LLC	Report Year: 2025	GO 156 Section 10.1.3
Plans for Recruiting Diverse Suppliers in Low Utilization Categories		

Wild Goose Storage will continue to monitor expenditures in the categories where utilization of diverse suppliers' has been historically low. We will continue to assess accounting reports in order to identify the magnitude of expenditures in these areas and determine if our efforts may have a tangible impact. As well, periodic review of the Clearinghouse website, and possibly attendance at future outreach events, will be done in an effort to identify diverse businesses that could potentially provide a product/service at Wild Goose Storage. Although we hope to take advantage of opportunities in low utilization areas, it is our intent to focus our supplier diversity efforts where we can maximize our expenditures with verified suppliers regardless of category to help increase overall spend percent.

<b>Plans for Recruiting Diverse Suppliers Where Unavailable</b>		

This continues to be a challenge for Wild Goose Storage due to proximity of their operation in Northern California, combined with the nature of their business, and limited number of supplier diverse products/services that can support their needs. However, Wild Goose Storage will keep this initiative in mind when seeking suppliers/contractors, and make efforts to recruit diverse businesses from areas that previously have not been available. Wild Goose Storage will take the opportunity, when available, to express their desire to the supplier/contractor community in utilizing diverse companies for their needs.

Plans for Encouraging Prime Contractors to Subcontract with Diverse Suppliers		

Wild Goose has supplied prime contractors with pamphlets provided by Supplier Clearinghouse and with a copy of G.O. #156. Wild Goose continues to encourage its prime suppliers and contractors to subcontract with diverse businesses. Ultimately, it's the contractor's decision as to what subcontractors they select that best fulfill their company's needs. But, at a minimum, they are aware of the G.O. #156 initiative to utilize diverse products/services. The Wild Goose program administrator will continue to assist plant personnel that have procurement authority to encourage prime contractors to include verified minority suppliers.

<b>Plans for Complying with Supplier Diversity Program Guidelines</b>

The company will strive to comply with the provisions and requirements of G.O.#156 and will work with the CPUC in the ongoing implementation of program goals and objectives.
