CPUC Drives Transformative Changes Through Land Conservation and Social Equity Programs

In efforts to positively impact land conservation throughout California, the California Public Utilities Commission (CPUC) is proud to share how it has achieved a legacy of long-term land preservation efforts through the establishment of the Pacific Forest and Watershed Lands Stewardship Council (Stewardship Council), a non-profit foundation.

The Stewardship Council was formed in 2004 as part of a Pacific Gas and Electric Company (PG&E) Settlement Agreement with the CPUC. The Agreement required PG&E to not only establish the Stewardship Council, but also allocate \$70 million for land planning

and enhancements and \$30 million for youth programs.

The CPUC's goal in working with PG&E through the Stewardship Council was to create an organization that would work collaboratively with the people of California to provide a legacy of land conservation and youth enrichment programs for current and future generations. The Stewardship Council's Board of Directors includes representatives from state and federal agencies, water districts, tribal and rural interests, forest and farm industry groups, conservation organizations, the CPUC, and PG&E to ensure that California's pristine watershed lands are conserved

for public good through land conservation and youth investment programs.

As a result, 140,000 acres of California's pristine watershed lands are now preserved for public use through a commitment known as the [Land Conservation Program](#). There are 1,000 parcels of land located in some of California's most environmentally diverse and scenic areas. These parcels span 22 counties from Shasta County (North), ending in Kern County (South), and include the Sierra Nevada and Cascade ranges, the Eel River watershed (Mendocino County), and the Carrizo Plains (San Luis Obispo County). The program includes funds for watershed lands that

Changes to Your Phone Bill: California's Public Purpose Program Surcharge

You may have noticed changes to your phone bill. Beginning April 1, 2023, California changed how it collects funds for the state's critical programs that make telephone and internet services affordable and available for low-income, deaf, disabled, rural and underserved customers, schools, libraries, hospitals, and other non-profit organizations. While the state previously collected six separate, variable-rate surcharges, the California Public Purpose Program Surcharge is a simple flat-rate surcharge that will ensure the fair and equitable funding of these vital programs well into the future.

The CPUC opened a new proceeding (called a [Rulemaking](#)) in March 2021 to address growing inequities on consumer bills and funding shortfalls for the state's Public Purpose Programs. The previous surcharge method relied on the highly variable "intrastate revenue" portion of customer bills. This resulted in widely different and inequitable surcharge rates for consumers, depending on their phone provider and type of service. During the proceeding, the CPUC discovered an inequitable surcharge burden on consumers, with some customers paying as little as \$0.21 and some as much as \$2.89. In addition, this resulted in inconsistent and declining revenue for funding the state's Public Purpose Programs. To ensure adequate program funding, the CPUC had to continuously increase surcharge rates in order to maintain consistent funding levels.

Phone, 707.536.XXXX	
Monthly charges	Apr 23 - May 22
1. Access for iPhone 4G LTE w/ VVM	\$40.00
2. Discount for Access	-\$20.00

7. State Public Utility Surcharge	\$0.02
Government fees & taxes	
8. 911/988 Surcharge	\$0.38
9. CA Universal Svc PPP Srchg	\$1.11
10. City Utility Users Tax	\$0.33
Total for 707.536.XXXX	\$25.76

Example phone bill

In October 2022, the CPUC [adopted](#) the new surcharge to provide a sustainable, straightforward, equitable, and technology-neutral method for phone companies to collect and remit surcharges. The new single, flat-rate surcharge applies to all customers equally, regardless of their phone provider, or whether they subscribe to traditional wireline telephone service, Voice over Internet Protocol service (VoIP), or wireless service. To ensure low-income and vulnerable populations are not burdened financially by the single flat-rate surcharge, the CPUC exempted customers enrolled in the [California LifeLine Program](#), as well as incarcerated persons.

The flat-rate amount is a simple calculation based on dividing the number of telecommunications lines in California by the overall budget for the Public Purpose Programs. As a result, California phone bills will include one flat-rate surcharge of \$1.11. The surcharges collected will continue to fund six essential programs for the millions of Californians who rely on them to stay connected to family, friends, work, school, community, healthcare providers, and other essential services. This represents an important step by the CPUC to protect universal service in California through a more sustainable and predictable surcharge mechanism. The CPUC will monitor this surcharge amount and may adjust it based on the needs of the programs.

Consumers may also see a new link on their bills to a [web-page](#) that provides information regarding the new surcharge mechanism, why it was changed, what it funds, and other frequently asked questions. ■

Microgrid Incentive Program Helps Increase Community Resilience

In ongoing efforts to build community resilience against power outages and in the face of climate change, the CPUC has approved rules for the new Microgrid Incentive Program for Pacific Gas and Electric Company (PG&E), Southern California Edison (SCE), and San Diego Gas & Electric (SDG&E).

The Microgrid Incentive Program is a \$200 million program previously authorized by the CPUC to support the development of community [microgrids](#) in disadvantaged and vulnerable communities, as well as tribal communities, who have experienced and are likely to experience power outages. It allocates \$79.2 million for PG&E, \$83.3 million for SCE, and \$17.5 million for SDG&E to build complex projects that can operate independently for extended periods and serve multiple customers in disadvantaged and vulnerable communities. Projects selected under the Microgrid Incentive Program can receive up to \$15 million in award funding. The program advances microgrid resiliency technology, distributes the benefits of microgrids equitably across these vulnerable communities, and provides insights for future actions that can enhance the resilience of the power system to benefit all customers.

The CPUC's April [decision](#) not only creates the program rules for the Microgrid Incentive Program but also directs PG&E, SCE, and SDG&E to conduct outreach and provide consultation to potential Microgrid Incentive Program applicants, including helping successful applicants develop their community microgrid. ■

BE YOU AT THE CPUC: JOIN OUR TEAM!

If you are looking for a rewarding career, consider joining our team at the CPUC!

We typically have opportunities at all levels available: leadership, supervisory, engineers, lawyers, Administrative Law Judges, analysts, specialists, administration, and more. You will join a team of individuals tackling issues related to the regulation of essential services in California. For more information on job opportunities and the CPUC's hiring process, please visit www.cpuc.ca.gov/careers or email CPUCRecruiter@cpuc.ca.gov.

#BeYOUatCPUC

CPUC Reduces Incentives for Natural Gas to Better Align With State's Climate Goals

The CPUC has reduced incentives for natural gas energy efficiency measures in residential and commercial new construction to align more closely with the state's greenhouse gas reduction, climate change mitigation, and decarbonization goals.

The CPUC's April decision establishes a forward-looking framework under which ratepayer-funded natural gas energy efficiency incentives will no

longer be available. The framework includes various factors, such as cost-effectiveness, availability of electric alternatives, program types, and exemptions for equipment that support state decarbonization goals.

As a first step in this framework, beginning in 2024, ratepayer-funded incentives for residential and commercial new construction projects will only be allowed for measures that do not burn

natural gas or that are cost-effective. The new rules will continue to fund exempt measures, such as energy efficient equipment that produce natural gas savings but do not use natural gas, such as building insulation, sealing, smart thermostats, faucet aerators, and building envelope measures like windows and doors. The energy efficiency portfolios overseen by the CPUC include programs that promote fuel substitution (i.e., replacing a measure that uses natural gas with a measure that uses electricity, or vice versa) and offer incentives for electric energy efficiency measures.

The [decision](#) aims to encourage the use of cleaner energy sources and reduce the state's dependence on natural gas. The move is part of California's broader efforts to combat climate change and achieve carbon neutrality by 2045. By phasing out incentives for natural gas measures, the CPUC is promoting the adoption of more energy-efficient and sustainable alternatives. ■

CPUC DRIVES TRANSFORMATIVE CHANGES THROUGH LAND CONSERVATION AND SOCIAL EQUITY PROGRAMS

continued from page 1

are preserved for outdoor recreation, sustainable forestry, agriculture, habitat protection, open space preservation, and long-term protection of historic and cultural resources. Each parcel is protected in perpetuity by a Conservation Easement held and enforced by an accredited California Land Trust.

The Stewardship Council's scope of responsibility also encompassed the creation of a [Youth Investment Program](#). This program provides outdoor access

and experiences for underserved youth communities, including the enhancement of parks and recreational areas. In 2012, the Stewardship Council created Justice Outside, a nonprofit organization, to continue efforts to oversee the youth investment funds and ensure that a legacy remains for all young people to have opportunities to have meaningful outdoor experiences in the protected watershed lands—now and in the future.

The many accomplishments of the Stewardship Council's Land Conservation and Youth Investment efforts to date included:

- Conserved 140,000 acres of California's watershed lands for public use.
- Awarded 268 grants totaling \$12.2 million since 2006.
- Granted funding to the California Council of Land Trusts to launch and administer Training and Apprenticeship Programs from 2017-2019.

CPUC DRIVES TRANSFORMATIVE CHANGES THROUGH LAND CONSERVATION AND SOCIAL EQUITY PROGRAMS

continued from page 4

- Impacted 260,000+ underserved young people by connecting them with opportunities to experience the outdoors through activities and park infrastructure improvements.
- Managed Youth Investment Program from 2005-2011.
- Created a pathway for self-sustaining operations of Youth Investment Program through the creation of the non-profit organization Justice Outside in 2012. Justice Outside contin-

ues in perpetuity and is recognized for making a lasting impact on racial justice and social equity in the outdoor and environmental movement.

The Stewardship Council has completed its responsibilities to conserve land and create access to nature for all people in California, and the CPUC is currently working on a dissolution [process](#). The Sierra Nevada Conservancy (a California State Agency) will soon be the agency responsible for the legacy

distribution of the remaining Stewardship Council funds in addition to providing administrative functions when the Stewardship Council dissolution is completed by the end of this year. The Stewardship Council's Board has approved all Land Conveyance and Conservation Plans, and the final PG&E requests for watershed land transaction approval by the CPUC are anticipated to occur by the end of 2023. ■

California Public Utilities Commission

About this publication

This monthly newsletter is to keep you informed of proposals by the CPUC's Commissioners and Administrative Law Judges, as well as utility applications, and other issues and work of note. We also include a list summarizing the filings at the CPUC in the previous month.

We want to hear from you! If you have topics you'd like us to cover or if you'd like to make comment on our proceedings or work, please contact us at outreach@cpuc.ca.gov or call (855) 421-0400. You can find information about events we are having at www.cpuc.ca.gov/Events.

Prior editions of this newsletter are available on the CPUC's website at www.cpuc.ca.gov/newsletter.
