YOUR POWER CHOICES

Choose the energy source and rate plan
that's right for you.

You now have a choice when it comes to your energy supply. Western Community Energy (WCE) and Southern California Edison (SCE) encourage you to compare your choices and select the option that suits you best.

If this comparison does not address your current rate plan
or if you have further questions, please contact:
WCE at westerncommunityenergy.com or (866) 356-4175
SCE at sce.com/cca or (800) 974-2356.

IT'S YOUR CHOICE

2020 SCHEDULE BUSINESS - RATE COMPARISONS

As a part of our ongoing commitment to better serve our business customers, WCE and SCE have come together to provide your business with a comparison of average monthly charges of our common business rates.

The comparison chart illustrates the estimated electricity costs for a typical business customer within WCE's service territory with an average monthly consumption of 979 kilowatt hours (kWh) for small businesses and 282,872 kWh for large businesses.

This comparison is based on WCE rates approved by the Board of Directors, effective as of April 1, 2020, and revised Choice Plus Plan effective June 1, 2020. SCE rate options are based on rates published April 13, 2020. Both WCE and SCE's rates are subject to change.

SCE implemented a rate change in June 2020, which is not reflected in this Joint Rate Comparison.

If this comparison does not address your current rate plan or if you have further questions, please contact: WCE at westerncommunityenergy.com or (866) 356-4175 or SCE at sce.com/ccs or (800) 974-2356.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate reflects the SCE cost to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Western Community Energy (WCE) customers and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers prior to a customer's switch to WCE or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
