

We support your power to choose

As part of our mutual commitment to support your energy choice, King City Community Power (KCCP) and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical commercial electric rates, average monthly charges and sources of energy generated.

If this comparison does not address your specific rate, please visit PG&E online at pge.com/ca or call 1-866-743-0335. For information on KCCP's generation rates, please visit kingcitycommunitypower.org or call 1-833-888-KING (5464).

Understanding your energy choice

2020 Commercial Rate Comparison, A-10S TOU*

			
Generation Rate (\$/kWh)	\$0.12537	\$0.07733	\$0.08459
PG&E Delivery Rate (\$/kWh)	\$0.13646	\$0.13646	\$0.13646
PG&E PCIA/FF (\$/kWh)	N/A	\$0.04379	\$0.03732
Total Electricity Cost (\$/kWh)	\$0.26183	\$0.25758	\$0.25837
Average Monthly Bill (\$)	\$2,939.70	\$2,891.98	\$2,900.85

*This compares electricity costs for an average commercial customer in the KCCP/PG&E service area (King City) with an average monthly demand of 51 kW and an average monthly usage of 11,228 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on A-10S TOU rate schedules for PG&E's and KCCP's published rates as of July 2020.

**Solar Choice is a limited program available only to eligible customers that choose PG&E as their electric service provider. For more information, please refer to pge.com/solarchoice.

Generation Rate is the cost of creating electricity to power your business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both KCCP and PG&E customers.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to recover PG&E's above-market costs for generation resources acquired prior to a customer's switch to a third-party electric generation provider such as KCCP. The PCIA also applies to PG&E customers that elect to take service under PG&E's optional Solar Choice program. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by the California Public Utilities Commission (CPUC) on behalf of cities and counties in PG&E's service territory for all customers. The costs for resources included in the PCIA and FF surcharges are included in the generation rate for PG&E bundled service customers.

If this comparison does not address your specific rate, please visit PG&E online at pge.com/ccca or call 1-866-743-0335. For information on KCCP's generation rates, please visit kingcitycommunitypower.org or call 1-833-888-KING (5464).

*As reported to the California Energy Commission's Power Source Disclosure Program excluding voluntary unbundled renewable energy credits. Data is subject to an independent audit and verification that will not be completed until later in 2020. The figures above may not sum up to 100 percent due to rounding.

**Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
