## We support your power to choose

As part of our mutual commitment to support your energy choice, Monterey Bay Community Power (MBCP) and Pacific Gas & Electric Company (PG&E) have partnered to provide you with a comparison of typical residential electric rates, average monthly charges and sources of energy generated.

If this comparison does not address your specific rates, please visit PG&E online at [pge.com/cca](https://pge.com/cca) or call **866-743-0335**. For information about MBCP's generation rates, please visit [mbcp.org/billing](https://mbcp.org/billing) or call **888-909-6227**.

# Understanding your energy choice

## 2020 Residential Rate Comparison, E1\*

		
Generation Rate (\$/kWh)	\$0.11752	\$0.08120
PG&E Delivery Rate (\$/kWh)	\$0.16335	\$0.16335
PG&E PCIA/FF (\$/kWh)	N/A	\$0.03399
Total Electricity Cost* (\$/kWh)	\$0.28087	\$0.27854
Average Monthly Bill (\$)	\$115.13	\$114.18

\*This compares electricity costs for an average residential customer in the MBCP/PG&E service area (Monterey, San Benito and Santa Cruz Counties as well as the cities of Morro Bay and San Luis Obispo) with an average monthly usage of 410 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on E1 TOU rate schedules for PG&E's published rates as of May 1, 2020, and for MBCP's published rates as of March 1, 2020.

GENERATION RATE is the cost of creating electricity to power your home. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

PG&E DELIVERY RATE is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MBCP and PG&E customers.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to recover PG&E's above-market costs for generation resources acquired prior to a customer's switch to a third-party electric generation provider, such as MBCP. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by the California Public Utilities Commission (CPUC) on behalf of cities and counties in PG&E's service territory for all customers. The costs for resources included in the PCIA and FF surcharges are included in the generation rate for PG&E bundled service customers.

If this comparison does not address your specific rates, please visit PG&E online at [pge.com/ccs](http://pge.com/ccs) or call **866-743-0335**. For information about MBCP's generation rates, please visit [mbcp.org/billing](http://mbcp.org/billing) or call **888-909-6227**.

## Electric Power Generation Mix

		
Specific Purchases	% of Total Retail Sales (MWh)	
<b>Renewable</b>	<b>29%</b>	<b>31%</b>
• Biomass & Biowaste	3%	2%
• Geothermal	2%	10%
• Eligible Hydroelectric	2%	3%
• Solar Electric	12%	8%
• Wind	9%	8%
<b>Coal</b>	<b>0%</b>	<b>0%</b>
<b>Large Hydroelectric</b>	<b>27%</b>	<b>69%</b>
<b>Natural Gas</b>	<b>0%</b>	<b>0%</b>
<b>Nuclear</b>	<b>44%</b>	<b>0%</b>
<b>Other</b>	<b>0%</b>	<b>0%</b>
<b>Unspecified Sources of Power†</b>	<b>0%</b>	<b>0%</b>
<b>TOTAL</b>	<b>100%</b>	<b>100%</b>

As reported to the CA Energy Commission's Power Source Disclosure Program excluding voluntary unbundled renewable energy credits. PG&E data is subject to an independent audit and verification that will not be completed until later in 2020. The figures above may not sum up to 100% due to rounding.

†Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
