

## We support your power to choose

As part of our mutual commitment to support your energy choice, King City Community Power (KCCP) and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical commercial electric rates, average monthly charges and sources of energy generated.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](https://pge.com/cca) or call 1-866-743-0335. For information on KCCP's generation rates, please visit [kingcitycommunitypower.org](https://kingcitycommunitypower.org) or call 1-833-888-KING (5464).

# Understanding your energy choice

## 2021 Commercial Electric Rate Comparison, E-19SV\*

		
Generation Rate (\$/kWh)	\$0.10599	\$0.05953
PG&E Delivery Rate (\$/kWh)	\$0.09158	\$0.09158
PG&E PCIA/FF (\$/kWh)	N/A	\$0.04533
Total Electricity Cost (\$/kWh)	\$0.19757	\$0.19644
Average Monthly Bill (\$)	\$4,263.67	\$4,239.29

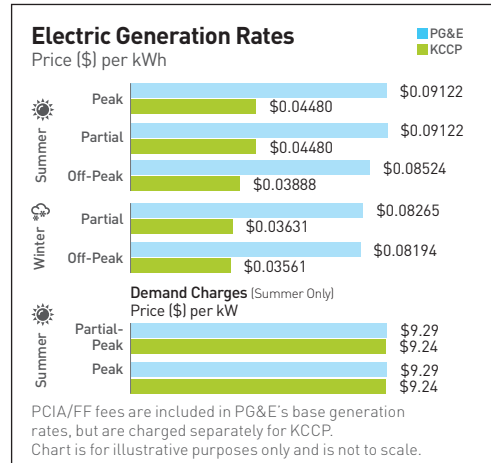

\*This compares electricity costs for an average commercial customer in the KCCP/PG&E service area (King City) with an average monthly demand of 47 kW and an average monthly usage of 21,581 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on E-19SV rate schedules for PG&E's and KCCP's published rates as of May 1, 2021.

**Generation Rate** is the cost of creating electricity to power your business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

**PG&E Delivery Rate** is a charge assessed by PG&E to deliver electricity to your business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both KCCP and PG&E customers.

**PG&E PCIA/FF** represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge (FF). The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by PG&E on their behalf. "Above market" refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. PG&E acts as a collection agent for the FF surcharge, which is levied by the California Public Utilities Commission (CPUC) on behalf of cities and counties in PG&E's service territory for all customers. The costs for resources included in the PCIA and FF surcharge are included in the generation rate for PG&E bundled service customers.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](http://pge.com/cca) or call 1-866-743-0335. For information on KCCP's generation rates, please visit [kingcitycommunitypower.org](http://kingcitycommunitypower.org) or call 1-833-888-KING (5464).

## Electric Power Generation Mix\*

		
Specific Purchases	Percent of Total Retail Sales (kWh)	
<b>Renewable</b>	31%	100%
• Biomass & Biowaste	3%	0%
• Geothermal	3%	0%
• Eligible Hydroelectric	1%	0%
• Solar Electric	16%	13%
• Wind	8%	87%
<b>Coal</b>	0%	0%
<b>Large Hydroelectric</b>	10%	0%
<b>Natural Gas</b>	16%	0%
<b>Nuclear</b>	43%	0%
<b>Other</b>	0%	0%
<b>Unspecified Sources of Power**</b>	0%	0%
<b>TOTAL</b>	<b>100%</b>	<b>100%</b>

\*As reported to the California Energy Commission's Power Source Disclosure Program excluding voluntary unbundled renewable energy credits. Data is subject to an independent audit and verification that will not be completed until later in 2021. The figures above may not sum up to 100 percent due to rounding.

\*\*Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
