

We support your power to choose

As part of our mutual commitment to support your energy choice, MCE and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical commercial electric rates, average monthly charges, and sources of energy generated.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](https://www.pge.com/cca) or call **1-866-743-0335**. For information on MCE's generation rates, please visit [mceCleanEnergy.org/commercial-rates](https://www.mceCleanEnergy.org/commercial-rates) or call **1-888-632-3674**.

MCE

Understanding your energy choices

Commercial Electric Rate Comparison, B19S

	PG&E	MCE Light Green 61% renewable	MCE Deep Green 100% renewable
Generation Rate (\$/kWh)	\$0.11207	\$0.08664	\$0.09664
PG&E Delivery Rate (\$/kWh)	\$0.12006	\$0.12006	\$0.12006
PG&E PCIA/FF* (\$/kWh)	N/A	\$0.02811 – \$0.04584	\$0.02811 – \$0.04584
Total Electricity Cost (\$/kWh)	\$0.23213	\$0.23481 – \$0.25254	\$0.24481 – \$0.26254
Average Monthly Bill (\$)	\$34,500.38	\$34,898.70 – \$37,533.82	\$36,384.95 – \$39,020.07

*PCIA and FF fees charged by PG&E are based on the year your community began service with MCE. Visit mceCleanEnergy.org/commercial-rates for more information.

Monthly usage: 148,625 kWh
Monthly demand: 499 kW

Current rates as of May 1, 2021

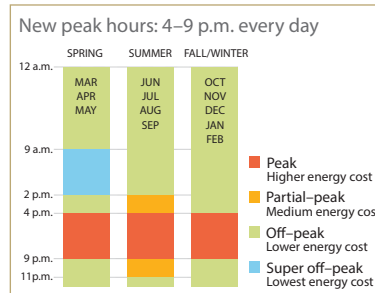

This table compares electricity costs for an average commercial customer in the MCE/PG&E service area with an average monthly demand of 499 kilowatts (kW) and an average monthly usage of 148,625 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on B19S rate schedules for PG&E's and MCE's published rates as of May 1, 2021.

Generation Rate is the cost of creating electricity to power your business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MCE and PG&E customers.

PG&E PCIA/FF The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by PG&E on their behalf. "Above market" refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. PG&E acts as a collection agent for the Franchise Fee (FF) surcharge, which is levied by the California Public Utilities Commission (CPUC) on behalf of cities and counties in PG&E's service territory for all customers. The costs for resources included in the PCIA and FF surcharges are included in the generation rate for PG&E bundled service customers.

If this comparison does not address your specific rate, please visit PG&E online at pge.com/cca or call 1-866-743-0335. For information on MCE's generation rates, please visit mceCleanEnergy.org/commercial-rates or call 1-888-632-3674.

2020 Electric Power Generation Mix**

Specific Purchases	Percent of Total Retail Sales (kWh)		
	PG&E	MCE Light Green	MCE Deep Green
Renewable	31%	61%	100%
Biomass & Biowaste	3%	2%	0%
Geothermal	3%	6%	0%
Eligible Hydroelectric	1%	3%	0%
Solar	16%	23%	50%
Wind	8%	27%	50%
Coal	0%	0%	0%
Large Hydroelectric	10%	36%	0%
Natural Gas	16%	0%	0%
Nuclear	43%	1%	0%
Other	0%	0%	0%
Unspecified Sources of Power ***	0%	1%	0%
Total	100%	100%	100%

**As reported to the California Energy Commission's Power Source Disclosure Program. MCE and PG&E data is subject to an independent audit and verification that will not be completed until October 1, 2021. The figures above may not sum up to 100 percent due to rounding.

***Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
