

NOTICE OF PUBLIC PARTICIPATION HEARING
California Water Service's Request to Adjust Water Rates
for the Travis District (APPLICATION 21-07-002)

What is this, and how can I participate?

California Water Service (Cal Water) and the California Public Utilities Commission (CPUC) would like to hear from you. You are invited to participate in a Public Participation Hearing (PPH) about Cal Water's Infrastructure Improvement Plan, also known as a General Rate Case (GRC) application.

This PPH is part of a formal proceeding that will be documented and placed into the formal record so the CPUC can make a decision about Cal Water's request. You can make comments and raise concerns to the CPUC Administrative Law Judge overseeing this application. You can also provide written public comments at any time during the proceeding at apps.cpuc.ca.gov/c/A2107002.

Where and when will this PPH be held?

There is no PPH specifically for the Travis District. Any customer can attend any of the PPHs listed in the table at the end of this notice.

The PPHs can be accessed via internet or phone with the information at the end of this notice. If you wish to make a public comment, please participate by phone using the phone number and passcode below and **pressing *1**. Your participation can help the CPUC make an informed decision.

Please note: If you need a language interpreter, please contact the CPUC's Public Advisor's Office using the contact information at the end of this notice at least five business days before the PPH.

Why am I receiving this notice?

On July 1, 2021, Cal Water filed its 2021 Infrastructure Improvement Plan, Application 21-07-002, with the CPUC. The application is requesting district revenue increases of \$1,436,025 in 2023, \$1,261,878 in 2024, and \$1,255,832 in 2025. If the CPUC approves this application, Cal Water will recover forecasted costs in rates over a three-year period beginning no earlier than January 1, 2023. This will impact your bill.

Why is Cal Water requesting this rate adjustment?

- Cal Water is required to file a GRC every three years to ensure water rates accurately reflect the costs of providing safe, reliable water service.
- This multi-year plan enables the utility to make infrastructure improvements to keep the water system reliable for customers, protect customers from known and emerging contaminants, and expand water supplies to ensure they are sustainable.

How could this affect my water bill?

If Cal Water's request is approved by the CPUC as filed, the average bill for the Travis District would increase by approximately \$119,699 or 73% per month in 2023, \$105,157 or 37.1% per month in 2024, and \$104,653 or 26.9% per month in 2025. These numbers do not include temporary surcharges and credits.

Average Customer Bill Change

<i>Customer</i>	<i>Current Bill</i>	<i>Proposed 2023 Bill</i>	<i>Proposed 2024 Bill</i>	<i>Proposed 2025 Bill</i>
Flat Rate Charge	\$163,933	\$283,602	\$388,759	\$493,412

How does the rest of this process work?

This application has been assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding will review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information, please call **(415) 703-1584**, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.
