Your power choices.

Choose the energy source and rate plan that's right for you.

Each year Clean Power Alliance and Southern California Edison (SCE) provide you the opportunity to compare your rate choices and the sources of your energy and select the option that best suits you and your business.

For more information: call Clean Power Alliance at 888-585-3788 or visit cleanpoweralliance.org, or call SCE at 800-974-2356 or visit sce.com/cca.

Understanding your energy choices.

You can make a comparison between Clean Power Alliance and SCE rates and see the energy mix of each to decide which service and rate works for you. The charts below illustrate the estimated electricity costs for a typical business customer with an average monthly energy usage of 961 kilowatt hours (kWh). This comparison is based on Clean Power Alliance rates approved by its Board of Directors and effective as of July 1, 2022. SCE rate options are based on rates effective June 1, 2022. Both Clean Power Alliance and SCE's rates are subject to change.

SCE rates current as of June 1, 2022. CPA rates current as of July 1, 2022.

*SCE's Green Rates for 50% and 100% of energy delivery are suspended for all new customers due to full subscription to approved Green Rate resources. SCE will maintain a waitlist for customers interested in participating in the Green Rate program, and as capacity becomes available, SCE will enroll customers on the Green Rate on a first-come, first-served basis.

All of CPA's rate products are open to all customers.

Generation Rate reflects the cost of producing or purchasing electricity to power your business. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your business. This rate depends on usage.

Surcharges represent the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers, prior to a customer's switch to a CCA or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
