

## We support your power to choose

As part of our mutual commitment to support your energy choice, King City Community Power (KCCP) and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical residential electric rates, average monthly charges and generation portfolio contents.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](https://pge.com/cca) or call 1-866-743-0335. For information on KCCP's generation rates, please visit [kingcitycommunitypower.org](https://kingcitycommunitypower.org) or call 1-833-888-KING (5464).

# Understanding your energy choice

## 2022 Residential Electric Rate Comparison, E-1\*

		
Generation Rate (\$/kWh)	\$0.12433	\$0.06531
PG&E Delivery Rate (\$/kWh)	\$0.18060	\$0.18060
PG&E PCIA/FF (\$/kWh)	\$0.02653	\$0.02044
Total Electricity Cost (\$/kWh)	\$0.33146	\$0.26635
Average Monthly Bill (\$)	\$103.72	\$83.35

\*This compares electricity costs for an average residential customer in the KCCP/PG&E service area (King City) with an average monthly usage of 313 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on E-1 rate schedules for PG&E and KCCP's published rates as of March 2022.

**Generation Rate** is the cost of creating electricity to power your home. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

**PG&E Delivery Rate** is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both KCCP and PG&E customers.

**PG&E PCIA/FF** The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by PG&E on their behalf. "Above market" refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. PG&E acts as a collection agent for the FF surcharge, which is levied by the California Public Utilities Commission on behalf of cities and counties in PG&E's service territory for all customers. PG&E bundled customers pay the PCIA and FF fees associated with the most currently available vintage year. PG&E charges KCCP customers the PCIA and FF fees based on the year that they transitioned to KCCP service. Visit [kingcitycommunitypower.org/billing-rates](http://kingcitycommunitypower.org/billing-rates) for more information.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](http://pge.com/cca) or call 1-866-743-0335. For information on KCCP's generation rates, please visit [kingcitycommunitypower.org](http://kingcitycommunitypower.org) or call 1-833-888-KING [5464].

## Electric Power Generation Mix\*

		
Specific Purchases	Percent of Total Retail Sales (kWh)	
<b>Renewable</b>	49%	40%
• Biomass & Biowaste	4%	0%
• Geothermal	5%	0%
• Eligible Hydroelectric	2%	0%
• Solar Electric	27%	40%
• Wind	11%	0%
<b>Coal</b>	0%	0%
<b>Large Hydroelectric</b>	4%	0%
<b>Natural Gas</b>	8%	0%
<b>Nuclear</b>	39%	0%
<b>Other</b>	0%	0%
<b>Unspecified Sources of Power**</b>	0%	60%
<b>TOTAL</b>	<b>100%</b>	<b>100%</b>

\*As reported to the California Energy Commission's Power Source Disclosure Program excluding voluntary unbundled renewable energy credits. Data is subject to an independent audit and verification that will not be completed until later in 2022. The figures above may not sum up to 100 percent due to rounding.

\*\*Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
