# NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY’S RATE INCREASE REQUEST

## Pacific Gas and Electric Company’s (PG&E) Diablo Canyon Power Plant (DCPP) 2027 Cost Recovery Application to the California Public Utilities Commission (CPUC) A.26-03-031

### What is being requested?

PG&E is requesting \$595 million in revenue for 2027 to recover forecasted costs associated with the continued operation of DCPP. As the owner of DCPP, PG&E is allowed to collect operating costs from customers of the large electric utilities in California with no additional markup. Based on a predetermined share of each utility’s allocation of statewide DCPP costs, PG&E would recover \$340 million, Southern California Edison Company (SCE) would recover \$208 million and San Diego Gas & Electric (SDG&E) would recover \$47 million. The requested revenue reflects forecasted costs necessary to support statewide electric grid reliability and to reduce greenhouse gas emissions while DCPP continues operating.

### ESTIMATED REQUESTED INCREASE IN ELECTRIC RATES

Effective January 1, 2027

| Customer Class               | Increase |       |
|------------------------------|----------|-------|
|                              | ¢/kWh    | %     |
| Bundled Service <sup>1</sup> |          |       |
| Residential                  | 0.11¢    | 0.34% |
| Small Commercial             | 0.15¢    | 0.38% |
| Medium Commercial            | 0.14¢    | 0.40% |
| Large Commercial             | 0.14¢    | 0.45% |
| Streetlights                 | 0.11¢    | 0.26% |
| Standby                      | 0.14¢    | 0.92% |
| Agriculture                  | 0.15¢    | 0.40% |
| Industrial                   | 0.11¢    | 0.53% |
| Average System Rate Change   | 0.13¢    | 0.39% |

<sup>1</sup>Customers who receive electric generation as well as transmission and distribution service from PG&E.

Direct Access (DA) and Community Choice Aggregation (CCA) customers receive electric transmission, distribution and select Commission-ordered services from PG&E. If this application is approved, on average, rates for services provided by PG&E to these customers would increase by 0.6% compared to current rates. DA providers and CCAs set their own generation rates. Check with your DA provider or CCA to learn how this would impact your overall bill.

## How would this impact the typical residential customer?

The bill for a typical non-CARE bundled residential customer using 500 kWh per month would increase from \$197.51 to \$198.59 or 0.5%, compared to current bills. Actual impacts will vary depending on usage and the applicable Base Service Charge, if eligible.

## Additional information

You can read more about PG&E's request and make public comment by visiting [apps.cpuc.ca.gov/c/A2603031](https://apps.cpuc.ca.gov/c/A2603031). For questions about participating in CPUC matters, you can contact the Public Advisor's Office at [Public.Advisor@cpuc.ca.gov](mailto:Public.Advisor@cpuc.ca.gov), **1-866-849-8390**, or 505 Van Ness Ave., San Francisco, CA 94102. Please reference A.26-03-031 in any communication with the CPUC.

## Questions about the request

If you have questions about PG&E's request, please contact PG&E at **1-800-743-5000**. For TTY call **711**.
