SAN FRANCISCO, CA 94102-3298

**PUBLIC UTILITIES COMMISSION REPORT PURSUANT TO  
PUBLIC UTILITIES CODE SECTION 910.1****Introduction**

As the state's primary regulator of investor-owned electric, gas, water, transportation and telecommunication services, the California Public Utilities Commission (Commission) is responsible for the development of effective regulatory constructs to ensure that these services are delivered safely, affordably, reliably, and environmentally responsibly. The Commission carries out this important task through the management of public decision-making processes, known as proceedings, that solicit the expertise, perspectives, and input from stakeholder groups representing a wide range of interests and views. These proceedings ultimately lead to the creation, modification, or improvement of new and existing rules that are designed to achieve public interest objectives for the utility services overseen by the Commission.

Public Utilities Code Section 910.1 requires the Commission to report annually on the status of its proceedings, specifically, on timeliness in resolving cases, information on the disposition of applications for rehearing, and the number of days that Commissioners presided in hearings. The Commission submits this report for the reporting period of calendar year 2023, in which Commission continued to respond to disruptions for utility customers, regulated utilities, and operations of the Commission created by the COVID-19 pandemic.

In addition, Public Utilities Code Section 1701.1 et seq. requires that regulatory matters before the Commission be resolved within certain time periods, depending on the categorization of a proceeding. Prior to January 1, 2017, Public Utilities Code Sections 1701.1 et seq., notably the requirement for scoping memos and the statutory deadlines, did not apply to proceedings that were not subject to evidentiary hearing. However, Senate Bill 215 (Leno, Stats. 2016, ch. 807), amended Sections 1701.1 et seq. to extend their provisions to all proceedings regardless of whether they are subject to evidentiary hearing.

There are four types of proceeding categories: adjudicatory, ratesetting, quasi-legislative and catastrophic wildfire. Adjudicatory proceedings investigate and adjudicate possible violations of state or Commission rules and must be resolved

within 12 months. Ratesetting proceedings set or investigate rates that regulated entities charge customers; quasi-legislative proceedings establish policies or rules affecting regulated entities. Both ratesetting and quasi-legislative proceedings must be resolved within 18 months, unless a longer deadline is set by the assigned Commissioner's scoping memo or a Commission order extending the statutory time period. Finally, in catastrophic wildfire proceedings, a proposed decision must be issued within 12 months.

All of the Commission's proceedings are comprehensive, stakeholder informed decision-making processes that focus on producing the most desirable regulatory solutions to some of the state's most critical electric, gas, telecommunications, water, and transportation utility issues. The Commission also hears individual customers' complaints against a utility. A proceeding will be closed when key matters have been decided or considered fully resolved. At times, proceedings that have had all substantive issues decided may remain open or be reopened because of stakeholder objections. These objections may take the form of applications for rehearing, petitions for modification, and various motions. Commission proceedings can be complex and require the consideration of all perspectives provided by stakeholders throughout the proceeding. Before reaching a decision on regulatory and policy matters, Administrative Law Judges and Commissioners carefully review and consider the contributions of stakeholders, including formal testimony, comments, and reply comments to the Rulings and Proposed Decisions in a proceeding, keeping in mind the importance of resolving issues in a timely manner. Stakeholders to proceedings, who typically become parties to the proceeding, include the regulated investor-owned utilities, industry trade associations, consumer advocacy groups, non-profit organizations, local governments, and other interested participants. Participation in proceedings by these organizations is critical to ensure that the decisions made are well-informed and provide balanced solutions to the complex regulatory issues before the Commission.

As described in this report, 153 out of 154 proceedings resolved by the Commission in 2023 that were subject to statutory deadlines were completed consistent with statutory timeframes, either due to resolution within the statutory deadlines, or because a scoping memo establishing a longer deadline, or a timely extension order, was issued as permitted by law. This report provides details regarding whether proceedings were resolved in a timely manner with or without extension orders. More detailed information is contained in the attached Appendices A-J. Appendix K reports the days that Commissioners presided in hearings, and Appendix L reports information on the disposition of applications for rehearing.

Lastly, in an effort to improve its decision-making processes, the Commission continuously assesses and reassesses its management of proceedings. Improvements are focused on ensuring that these proceedings are accessible to interested stakeholders, preserve their due process rights as parties and ultimately lead to a resolution of matters in a reasonable timeframe. As the Commission continues to develop refinements to decision-making processes that balance timeliness with thoughtful public participation and effective record development, the Commission is always open to hearing the innovative ideas of the public, stakeholders, and the Legislature.

### **Description of Attached Appendices A-L**

#### **Appendix A – Proceedings Initiated Before January 1, 2017, not Subject to Evidentiary Hearings, Active During 2023 (Resolved and not Resolved)**

Appendix A lists proceedings active during 2023 that were initiated prior to January 1, 2017, and not subject to evidentiary hearings. Of the 4 proceedings, 1 was resolved during 2023. The remaining 3 proceedings are currently active and on schedule.

#### **Appendix B – Complaints Under the Expedited Complaint Procedure, Active During 2023**

Appendix B lists 45 Expedited Complaint Proceedings (ECP) that are small complaint cases handled under special procedures analogous to “small claims” court. These proceedings are not subject to statutory deadlines. We are reporting these matters separately because the Commission has adopted more aggressive timelines for these cases than the statutory timelines for other proceedings. The Commission has established an informal 132-day target for this type of proceeding to be resolved.

During 2023, 27 of these 45 proceedings were resolved. Eighteen proceedings remain active.

### **Appendix C – Proceedings Active During 2023 – Proceedings Resolved**

During 2023, the Commission timely resolved 153 proceedings (9 adjudicatory, 138 ratesetting, 2 quasi-legislative; and 4 proceedings resolved rehearing-related issues that were not categorized). 1 proceeding did not meet the 18 months statutory deadline.

### **Appendix D – Proceedings Active During 2023 – Proceedings not Resolved**

During 2023, there were 3 active, unresolved proceedings that were initiated prior to January 1, 2017, and subject to evidentiary hearings, and 280 active, unresolved proceedings that were initiated after January 1, 2017. 277 proceedings (32 adjudicatory, 35 quasi-legislative and 210 ratesetting) are currently on schedule, taking into account statutory deadlines, orders extending statutory timeframes, and scoping memos establishing deadlines that in some instances exceed basic statutory timeframes. Six proceedings are active but had not been timely extended as of December 31, 2023. Four proceedings are addressing rehearing-related issues and categorization will be addressed as necessary if the Commission subsequently grants rehearing.

### **Appendix E – Petitions for Valuation of Utility Property**

Petitions for Valuation of Utility Property are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Sections 1401-1421. Appendix E shows that one such proceeding was active during 2023 and currently on schedule.

### **Appendix F – Petitions for Rulemaking**

Petitions for Rulemaking are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Section 1708.5. The Commission is mandated to issue a decision in this type of proceeding within six months. Appendix F shows that one such proceeding was resolved in 2023.

### **Appendix G – Citation Appeals and General Order 156 Appeals**

Resolution ALJ-377 established the Citation Appeal and General Order 156 Appeal process (April 28, 2020) based on the pilot program established by ALJ-299 (June 26, 2014). Under ALJ-377, appellate records are easily accessible, thus enhancing due process in these expeditious proceedings. Appendix G shows that 32 such appeals were active during 2023 and that the Commission has issued 13 resolutions addressing the appeals. Nineteen appeals are active.

### **Appendix H - Requests for Hearing on Administrative Enforcement Orders Active During Calendar Year 2023**

Resolution M-4846 established the process to Request a Hearing on an Administrative Enforcement Order. Under Resolution M-4846, requests for hearing follow the procedural rules set forth in Resolution ALJ-377 that provide easily accessible appellate records thereby enhancing due process and transparency of the Commission Enforcement Policy. Three proceedings were active during 2023, and all were resolved in 2023.

### **Appendix I – 60-90 Day Period for Adoption of Decision**

The Legislature has also established guidelines for the length of time between the issuance of a proposed decision and the adoption of a final decision by the Commission, applicable to all ratesetting proceedings and to quasi-legislative proceedings requiring a hearing. The guidelines are either 60 or 90 days depending on certain circumstances.

During 2023, the Commission considered 97 proposed decisions subject to these guidelines. Eight proposed decisions are pending resolution. The Commission adopted 89 decisions subject to these guidelines. 81 decisions were adopted within the guidelines. Eight proposed decisions were resolved outside the guidelines. One proposed decision (issued on December 19, 2022 and reported as pending in last year's report) was later revised and issued for comment on May 26, 2023.

### **Appendix J – Issuance of Presiding Officer Decisions and Proposed Decisions**

The Legislature has also established guidelines for the length of time between the submission of a matter for decision and the issuance of the proposed decision. During 2023, the Commission issued 20 presiding officer decisions and 101 proposed decisions in such proceedings. Out of these 121 decisions, 79 were issued within the 60-day and 90-day timelines.

### **Appendix K – Issuance of Extension Orders and Scoping Memos**

The Legislature has also established a process for extending the statutory deadlines through issuance of an extension order. During 2023, the Commission issued 103 extension orders in 101 separate proceedings (more than one extension order was issued in some proceedings), including proceedings which remained open at the end of 2023. 248 proceedings were subject to statutory deadlines in 2023 and there were 85 proceedings where extension orders were issued.

The assigned Commissioners issued 154 scoping memos (including amended scoping memos) in 147 proceedings.

### **Appendix L – Commissioner Attendance**

Appendix L reports Commissioners' attendance at hearings during the period. The table shows that Commissioners attended 75 days of hearings and presided during 2 of those 75 days.

### **Appendix M – Information on Disposition of Applications for Rehearing**

Appendix M reports information on the disposition of applications for rehearing in 2023.

## **Conclusion**

In summary, this report, submitted in compliance with Public Utilities Code Section 910.1, provides the public and the Legislature information on Commission action in formal proceedings. Specifically, 519 proceedings were active at the Commission during the 2023 reporting period. During 2023, 196 of these proceedings were resolved. 99.5% of the proceedings subject to statutory deadlines were resolved consistent with statutory requirements, taking into account scoping memos, which in some instances set deadlines longer than basic statutory timeframes, and orders extending the statutory timeframes adopted by the Commission, as permitted by statute. The Commission is committed to continuing to achieve full compliance with the statutory guidelines.

\* This is an Application for Rehearing of a Resolution dealing with an informal advice letter. This application for rehearing is assigned a formal application number and is assigned to Legal Division for a determination of whether the Commission's resolution contains legal error. If the Commission subsequently grants rehearing of the resolution, the Commission will undertake a proceeding in this application and will address categorization and need for hearing as necessary at that time.
