What is Being Requested?

CalAm is requesting an increase in revenue of \$44,757,746 or 28.93% from 2027–2029 for the Southern Division to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service, both now and in the future. Some of the key projects CalAm proposes in this cycle are to: drill new wells, rehabilitate existing wells, treat per- and polyfluoroalkyl substances (PFAS)/perfluorooctanoic acid (PFOA) and hexavalent chromium in affected wells, replace booster pump stations, replace and rehabilitate existing reservoirs, and replace water mains.

How Would This Impact the Average Residential Ratepayer?

If the requested amount is approved, the increase would be phased in over three years. The average residential ratepayer with a 5/8-inch meter in the following service areas would see a total monthly rate increase as follows. The actual increase will vary based on usage.

SERVICE AREA	Average Use (CGL*)	PROPOSED TOTAL INCREASE
Baldwin Hills	82.1	\$15.22
Bellflower	78.4	\$9.84
Duarte	93.9	\$22.16
East Pasadena	67.0	\$12.53
San Marino	113.1	\$27.75

*CGL = 100 gallons of water

Additional Information

An administrative law judge will hold hearings, consider evidence, testimony, and public comments before drafting a proposed decision on this application. CPUC commissioners will then vote on a final decision at a public meeting.
