GSWC is requesting an increase in revenue of \$4,121,666 or 42.7% from 2028-2030 to cover its anticipated costs for improvements to the return on rate base, allocated general office and district office expenses (such as customer service, water quality), depreciation expenses, Federal income tax, and property taxes.

Customer Class	\$ Increase	% Increase	Estimated Average Bill Changes (\$)

How Would This Impact the Average Residential Customer?

If the request is approved, the average residential customer with a 5/8 x 3/4" meter using 7 CCF (1 CCF = 748 gallons) per month would see a rate increase of approximately \$37.89 per month, phased in over three years. The actual impact will vary based on usage and other factors.
