What is Being Requested?

The Clearlake Service Area is part of the Region 1, Northern Consolidated districts. GSWC is requesting an increase in revenues of \$14,515,524 or 55.4% from 2028-2030 to cover its anticipated costs for improvements to the return on rate base, allocated general office and district office (such as customer service, water quality), depreciation expense, Federal income tax, and property taxes.

Customer Class	\$ Increase	% Increase	Estimated Average Bill Changes (\$)
Residential	\$6,549,639	49.7%	\$10.36

Private Fire	\$55,428	12.5%	\$1.00/inch

How Would This Impact the Average Residential Customer?

If the request is approved, the average residential customer with a 5/8 X 3/4" meter using 4 ccf (1 ccf = 748 gallons) per month would see a rate increase of approximately \$10.36 per month, phased in over three years. The actual impact will vary based on usage and other factors.
