PUBLIC VERSION

Re: Charter Communications, Inc. Response to Report on Communications Infrastructure Provider (CIP) Audit of Charter's Tahoe Region

Dear Mr. Tse:

This letter is submitted in response to the Safety and Enforcement Division's Electric Safety and Reliability Branch ("ESRB") March 11, 2025 report on *Communications Infrastructure Provider (CIP) Audit of Charter's Tahoe Region* ("Audit Report"). Charter Communications, Inc., on behalf of its pole attacher affiliate ("Charter") has reviewed the Audit Report and the issues raised in the report and, as of the time of this filing, has made all repairs or notified third parties where issue owner is a third party, in response to the "Field Inspection" and "Observation" portions of the Audit Report. A confidential spreadsheet is attached which summarizes each field issue and indicates the repairs made, if needed for compliance, and the date completed. See **Confidential Attachment 1**. Further, this letter addresses issues raised in the "Records" section of the Audit Report.

The Audit Report features confidential information and Charter requests that the Commission not disclose the confidential unredacted Audit Report given that such confidential information was provided with a declaration supporting a request for confidential treatment, and General Order 66-D and Public Utilities Code Section 583 dictates that such information cannot be disclosed without a Commission order. Please note that both this letter and the attached documents are also confidential. Enclosed is a declaration supporting Charter's request for confidential treatment of both the information in this letter as well as the attached confidential documents.

Charter would welcome the opportunity to discuss with you to clarify our responses prior to any subsequent report or reply related to this audit. If you have questions regarding this response, please reach out to Torry Somers (torry.somers@charter.com) and me (ryan.lindsay@charter.com).

Sincerely,

/s/ Ryan Lindsay

Ryan Lindsay

(Response to Audit Report Begins on Next Page)

RESPONSES TO AUDIT REPORT

I. Records

1. ***ESRB Finding:*** *ESRB sampled a total of 50 detailed inspection records from the* Spida Patrol_detail_3rd Party *document to verify the accuracy of Charter's HFTD assignments. 40 of these 50 entries started a 9-year countdown after the detailed inspection which ESRB interpreted as Tier 2 HFTD locations since the timeframe coincided with the required Tier 2 HFTD detailed inspection cycles. ESRB identified that 19 out of the 40 locations were actually located in a Tier 3 HFTD which require five-year detailed inspection cycles.*

   The remaining ten of the sampled entries started a 19-year countdown which ESRB interpreted as non-HFTD locations. Five of the ten assets were in a Tier 2 HFTD which require 10-year detailed inspection cycles. Therefore, ESRB identified that Charter assigned incorrect HFTD areas to nearly half of the sampled locations (24 out of 50) and has not been performing detailed inspections in accordance with GO 95, Rule 80.1-A(1).

CHARTER RESPONSE:

Charter plans to correct the tier designation for the addresses cited in the *Spida Patrol_detail_3rd Party* document. Furthermore, Charter has begun a review of its designated HFTD areas and plans to correct any discrepancies. Charter notes that at least one of the locations identified with incorrect HFTDs is in fact correctly designated. Regardless of any misidentified HFTD tiers, the associated detailed inspection timeline for these locations were within the required timeline due for detailed inspections. The identified locations were outliers associated with nodes in Tier 3 HFTD and are inspected with the other appropriately labeled Tier 3 HFTD locations.

Charter continually evaluates its auditable maintenance program technical inspection record-keeping practices and will further evaluate its practices in light of the recommendations made in this Audit Report. Charter conducts patrol (and detailed) inspections in accordance with Charter's inspection program, which ESRB has reviewed in numerous prior audits (along with patrol inspection data) and not identified violations in prior audits.

2. ***ESRB Finding:*** **[BEGIN CONFIDENTIAL]** [redacted] **[END CONFIDENTIAL]**

CHARTER RESPONSE:

As to the finding regarding the number of inspection records, Charter continually evaluates its technical inspection record-keeping practices and will further evaluate its practices in light of the finding made in this Audit Report. However, Charter notes that the finding appears to significantly underrepresent the number of inspections identified in the spreadsheet presented to ESRB. **[BEGIN CONFIDENTIAL]** [redacted] **[END CONFIDENTIAL]** Charter also notes that the Audit Report's methodology used to estimate the number of inspections that "should" be conducted over a five-year period lacks clarity and it is unclear whether the estimate is accurate. Charter welcomes the opportunity to discuss and better understand its estimation methodology.

3. ***ESRB Finding:*** *ESRB reviewed Charter's Tahoe area corrective notifications from June 2019 through June 2024 and found that Charter completed a total of 1,380 notifications late. Table 3 breaks down the total late notifications for the Tahoe area by priority…*

   Table 3 includes both late completed notifications and the late pending notifications for each priority. Late completed notifications are any notifications completed after the due dates that apply to the notifications' priority level per GO 95, Rule 18-B. Pending notifications are any notifications that were still open with a due date prior to June 01, 2024.

CHARTER RESPONSE:

Charter notes that there are no notifications on the "CONFIDENTIAL Prism Completed Projects June 2019 – June 2024" spreadsheet. This spreadsheet provides information on new construction projects only. Third party notifications and infraction remediations are listed on the "CONFIDENTIAL Spida Data –Patrol Detail 3rd Party 7-3-24" spreadsheet.

Following the issuance of the Audit Report, Charter reviewed its data submission and identified certain missing information demonstrating that corrective notifications were actually completed but due to technical errors were not included in its prior submission. Charter now provides additional data to supplement its prior submission. See **Confidential Attachment 1**.

[BEGIN CONFIDENTIAL] [redacted] **[END CONFIDENTIAL]**

Regarding corrective notifications that have not yet been completed, this is due to permitting issues and weather delays that impacted the abilities of Charter and its contractors to resolve the issues. Charter anticipates completing these projects as soon as possible.

II. "Field Inspection" and "Observations"

A confidential spreadsheet is attached which summarizes each "Field Inspection" and "Observations" issues identified in the Audit Report and indicates the repairs made and/or third-party communications made, if needed for compliance, and the date completed. See **Confidential Attachment 2**.

END OF RESPONSES

DECLARATION OF TORRY R. SOMERS
SEEKING CONFIDENTIAL TREATMENT

I, Torry R. Somers, declare as follows:

1. I am Vice President, State Regulatory Affairs, of Charter Communications, Inc. ("Charter") and am authorized to make this declaration.

2. Charter is submitting its spreadsheet response ("Response") to the Safety and Enforcement Division Audit Report of Charter's Tahoe Region, with this request for confidential treatment made pursuant to Section 3.2 of General Order ("GO") 66-D.

3. *Audit Information:* I am informed and believe that the Public Records Act, including but not limited to California Government Code Sections 7923.600, 7929.215, and 7930.100, protects against disclosure of investigatory information, which includes the type of audit information set forth in the attached.

4. *Critical Infrastructure Information:* The Response contains sensitive information regarding Charter's network infrastructure. I am informed and believe that the California Public Records Act protects against disclosure of confidential "utility systems development" data, like the data contained herein. California Government Code Section 7927.300. Moreover, I am informed and believe that state law protects against disclosure that is prohibited under federal law—federal law protects against the disclosure of information regarding critical infrastructure (6 U.S.C. § 673), which has been found to include communications network information like the information being submitted here. The information is not customarily in the public domain and is not solely related to the location of a particular physical structure that is visible with the naked eye. The enclosed infrastructure information is critical to our nation's communications networks, and disclosure of these records could harm public safety and network reliability by exposing to attack specific locations, operations, and functionalities of communications and utility infrastructure.

5. *Trade Secret:* The Response contains confidential network and operational information that is not disclosed to the public. This Response contains information that reveals unique planning, design and implementation efforts used to provide safe, reliable and competitive service to consumers in these areas. This information has significant value to Charter, which would, if disclosed, provide access to information that would harm the private economic interests of Charter and could jeopardize the security of its network. I am informed and on this basis declare that the information provided constitutes a trade secret as defined by California Civil Code Section 3426.1 and California Evidence Code Section 1061 — California Government Code Sections 7927.605 and 7930.105 exempts from public disclosure competitively sensitive information that constitutes a trade secret.

6. *Public Interest Not to Disclose:* The Response contains competitively sensitive material, and critical information not available to the public, that would be harmful to Charter if publicly disclosed, which weighs in favor of non-disclosure under California Government Code Section 7922.000. In contrast to the direct harm that Charter would suffer from

disclosure — by losing its competitive advantage with respect to operations and network design and management, and jeopardizing the safety of its network — there would be no apparent benefit to the public from disclosure of the responses. Further, a failure to preserve the confidentiality of the records would discourage compliance with disclosure requirements and undermine the Commission's ability to perform its duties.

7. Employee Information: The Response contains sensitive personal information regarding Charter's employees, and I am informed and believe that such information is protected from disclosure under California Government Code Section 7927.700.

8. To the extent that there is a need to make contact regarding potential release of information, such contact should be made to Torry Somers, torry.somers@charter.com or Charter's counsel, zzankel@jenner.com.

I affirm and declare under penalty of perjury under the laws of the State of California, including Rule 1.1 of the CPUC's Rules of Practice and Procedure, that to the best of my knowledge, all of the statements and representations made in this declaration are true and correct.

Executed on this 9th day of April, 2025 at El Segundo, California.

/s/ Torry R. Somers
