SAN FRANCISCO, CA 94102-3298

September 25, 2025

GI-2025-07-PGE-71-17

Mr. Austin Hastings
Vice President, Gas Engineering
Pacific Gas and Electric Company
6121 Bollinger Canyon Road
San Ramon, CA 94583

SUBJECT: General Order 112-F Gas Inspection of PG&E's Mobile LNG Division

Dear Mr. Hastings:

The Safety and Enforcement Division (SED) of the California Public Utilities Commission conducted a General Order 112-F inspection of Pacific Gas & Electric Company's (PG&E) Mobile Liquefied Natural Gas (LNG) Division (Division) on July 21 through July 25, 2025. The inspection included a review of the Division's records for the period of 2023 through 2024, as well as a representative field sample of the Division's facilities.

SED's findings are noted in the Post-Inspection Written Preliminary Findings (Summary) which is enclosed with this letter. The Summary reflects only those particular records and pipeline facilities that SED inspected during the inspection. SED discovered zero (0) violations and zero (0) concerns during the inspection.

As there were no findings, this letter does not require a response, and effectively serves as the Inspection Closure Letter.

If you have any questions, please contact Mohammad Nouredine at (916) 208-2965 or by email at Mohammad.nouredine@cpuc.ca.gov.

Sincerely,

Terence Eng, P.E.
Program Manager
Gas Safety and Reliability Branch
Safety and Enforcement Division
