505 VAN NESS AVENUE  
SAN FRANCISCO, CA 94102-3298

November 19, 2025

GI-2025-11-SWG-30-08

Kevin Lang  
Vice President, Engineering Staff  
Southwest Gas Corporation  
8360 South Durango Road  
Las Vegas, NV 89113

**Subject:** 2025 Southwest Gas (SWG) High Consequence Areas (HCAs) and Moderate Consequence Areas (MCAs) Inspection

Dear Mr. Lang:

On behalf of the Safety and Enforcement Division (SED) of the California Public Utilities Commission, Paul Penney and Kai Cheung conducted a General Order 112-F inspection of Southwest Gas' (SWG) Southern California Division (Division) on November 3<sup>rd</sup> and November 4<sup>th</sup>, 2025. The purpose of the inspection was to do a review of the SWG's Division records to determine if any HCAs and MCAs are currently in the state of California.

There continues to be no HCAs, nor are there any newly defined MCAs in SWG's Southern California transmission system. There were no violations discovered during the inspection. Nor are there any concerns or recommendations. This letter serves as the closure letter for this inspection.

Going forward, SWG must continue to analyze these California transmission lines periodically and determine if any HCAs and MCAs are formed in the future. If HCAs and/or MCAs are found, SWG must comply with the requirements of Part 192, Subpart O and General Order 112-F as applicable. SED staff will periodically inspect SWG's records to determine if there are any new HCAs and/or MCAs in the Division.

If you have any questions, please contact Paul Penney at (415) 703-1817 or [paul.penney@cpuc.ca.gov](mailto:paul.penney@cpuc.ca.gov).

Sincerely,

A handwritten signature in blue ink that reads "Terence Eng".

Terence Eng, P.E.  
Program Manager  
Gas Safety and Reliability Branch  
Safety and Enforcement Division
